Skipper, 2005-05-17 Student Development in the First College Year provides a detailed overview of some of the most commonly referenced theories of learning and development in the college years What sets this primer apart from other treatments of student development theory is its careful attention to the first college year and the wide range of educational environments in which learning and development take place The primer includes a discussion of moving from theory to educational practice and strategies for assessing developmental outcomes

Teaching Literary Research Kathleen A. Johnson, Steven Robert Harris, 2009 The Primer of Humor Research Victor Raskin, 2008-11-06 The book is intended to provide a definitive view of the field of humor research for both beginning and established scholars in a variety of fields who are developing an interest in humor and need to familiarize themselves with the available body of knowledge Each chapter of the book is devoted to an important aspect of humor research or to a disciplinary approach to the field and each is written by the leading expert or emerging scholar in that area There are two primary motivations for the book The positive one is to collect and summarize the impressive body of knowledge accumulated in humor research in and around Humor The International Journal of Humor Research The negative motivation is to prevent

the embarrassment to and from the first timers often established experts in their own field who venture into humor research without any notion that there already exists a body of knowledge they need to acquire before publishing anything on the subject unless they are in the business of reinventing the wheel and have serious doubts about its being round The organization of the book reflects the main groups of scholars participating in the increasingly popular and high powered humor research movement throughout the world an 800 to 1 000 strong contingent and growing The chapters are organized along the same lines History Research Issues Main Directions Current Situation Possible Future Bibliography and use the authors definitive credentials not to promote an individual view but rather to give the reader a good comprehensive and condensed view of the area *Library Journal* ,2004 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately

Out of Style Paul Butler,2008-01-31 Paul Butler applauds the emerging interest in the study of style among scholars of rhetoric and composition arguing that the loss of stylistics from composition in recent decades left it alive only in the popular imagination as a set of grammar conventions Butler s goal in *Out of Style* is to articulate style as a vital and productive source of invention and to redefine its importance for current research theory and pedagogy Scholars in composition know that the ideas about writing most common in the discourse of public intellectuals are egregiously backward Without a vital approach to stylistics Butler argues writing studies will never dislodge the controlling fantasies of self authorized pundits in the nation s intellectual press Rhetoric and composition must answer with a public discourse that is responsive to readers ongoing interest in style but is also grounded in composition theory **The British National Bibliography** Arthur James Wells,2005
