English-Chiswina Dictionary E. Biehler, 1927 *Culture after Humanism* Iain Chambers, 2013-10-18 Culture After Humanism asks what happens to the authority of traditional western modes of thought in the wake of postmodernist theories of language and identity. Drawing on examples from music, architecture, literature, philosophy, and art, Iain Chambers investigates moments of tension, interruptions which transform our perception of the world and test the limits of language, art, and technology. *Mining Coal and Undermining Gender* Jessica Smith Rolston, 2014-03-31 Though mining is an infamously masculine industry, women make up 20 percent of all production crews in Wyoming's Powder River Basin, the largest coal-producing region in the United States. How do these women fit into a working culture supposedly hostile to females? This is what anthropologist Jessica Smith Rolston herself, a onetime mine worker and the daughter of a miner, set out to discover. Her answers, based on years of participant observation in four mines and extensive interviews with miners, managers, engineers, and the families of mine employees, offer a rich and surprising view of the working families that miners construct. In this picture, gender roles are not nearly as straightforward or as straitened as stereotypes suggest. Gender is far from the primary concern of coworkers in crews. Far more important, Rolston finds, is protecting the safety of the entire crew and finding a way to treat each other well despite the stresses of their jobs. These miners share the burden of rotating shift work continually switching between twelve-hour day and night shifts, which deprives them of the daily rhythms of a typical home, from morning breakfasts to bedtime stories. Rolston identifies the mine workers' response to these shared challenges as a new sort of constructed kinship that both challenges and reproduces gender roles in their everyday working and family lives. Crews' expectations for coworkers to treat one another like family and to adopt an agricultural work ethic tend to minimize gender differences. And yet these differences remain tenacious in the equation of masculinity with technical expertise and of femininity with household responsibilities. For Rolston, such lingering areas of inequality highlight the importance of structural constraints that flout a common impulse among men and women to neutralize the significance of gender at home and in the workplace. At a time when the Appalachian region continues to dominate discussion of mining culture, this book

provides a very different and unexpected view of how miners live and work together and of how their lives and work reconfigure ideas of gender and kinship **Theology of the Gap** Scot Douglass,2005 Between the Councils of Nicaea AD 325 and Constantinople AD 381 the Trinitarian controversy turned on a heated and complex discourse about the possibility of discourse Theology of the Gap examines how the Cappadocians initially turned to the limitations of language to defeat their Neo Arian opponents and discovered in the process the very resources for their own production of theology and the promotion of a certain style of Christian becoming Scot Douglass uses insights from literary theory in order to re open the gaps central to the Cappadocians construction of created reality and also to map out the coherencies they forged between the diastemic and kinetic structures of creation language theology truth spirituality and silence In doing so Douglass invites the reader not only to reconsider how diastemic epistemology works itself out in Cappadocian thought but also how this register of the Cappadocian voice speaks to contemporary notions of post Christian theology Metanoia: A Catholic Book Series, Book Number Three: Vocation: Common Priest by Baptism Cecil Donald Leighton, Jr.,2023-09-23 Metanoia A Catholic Book Series Book Number Three Vocation Common Priest by Baptism is the author s third publication in this series of Catholic books In Vocation Common Priest by Baptism the author sets forth his personal experience in discerning whether Jesus Christ is calling him to share or participate in The Eternal Priesthood of Christ as a common priest by Baptism or as a ministerial priest by Holy Orders In answering this question the author recounts 25 years of priestly misidentifications and associations made by strangers parishioners family friends and neighbors connecting the 50 priest comments with the spiritual gifts and call of a Catholic priest Despite his sacerdotal gifts and interior call he explains why he will remain a layman serving Jesus Christ and His Church as a holy knowledgeable and charitable common priest by Baptism By publishing his vocation story the author hopes to inspire other men in discernment with their own sacerdotal gifts and interior call from Christ to become ministerial priests especially in light of the crisis of vocations in the U S Church Finally this book is part of the author s personal response to and promotion of the Church s universal call to holiness Lumen Gentium and the new evangelization Novo Millenio Ineunte in the electronically and globally connected virtual world of the Internet All of his books are also available in the Amazon Kindle Store worldwide *Department of the Interior and Related Agencies Appropriations for 1987* United States.  Political Freedom George G. Brenkert,2006-09-27 This book examines the underlying theoretical issues concerning the nature of political freedom Arguing that most previous discussions of such freedom have been too narrowly focused it

explores both conservatism from Edmund Burke to its present resurgence the radical tradition of Karl Marx as well as the orthodox liberal model of freedom of John Locke John Stuart Mill and Isaiah Berlin Political Freedom argues that these three accounts of political freedom conservative liberal and radical all have internal weaknesses which render them unsatisfactory In the second part of the book George Brenkert develops an alternative theory of political freedom Using the guiding concept of empowerment his model explores individual rights democratic participation in government and workplace and the need to provide the material and educational resources to allow individuals to effectively exercise their rights to self determination It is a clear and bold attack on the view that there is no link between freedom and power
