Tests And Exams In Singapore Schools: What School Leaders, Teachers And Parents Need To Know Kay Cheng Soh, 2017-09-22 Assessment mainly in the form of tests and examinations plays a critical role in the schooling of Singaporean students. The results are often used to make irrevocable decisions on the students' future education careers. This book is written with school leaders, teachers, and parents in mind with the view of helping them to better understand the processes and products of assessment via tests and exams. It is written in simple terms using minimal technical terms and introduces school leaders, teachers, and parents to essential concepts and principles of educational measurements which are relevant in the school context in Singapore. While existing books on educational measurement are academically oriented and meant for formal training courses, this book makes self-study simple by using practical examples couched in layman's language. In addition, this book uses concrete examples and analogies to make the text reader-friendly. Infancy to IC Theophilus Huang, 2025-08-04 Congratulations to us, we are now parents! Just like many others before us, we scour the Internet and bookshops hoping to find a guide that can tell us how to be good parents. Well, at the very least, we should avoid messing up our parental duties. There is a problem: we are based in Singapore. While this is a great place to live and work, it's quite a different story for the kids. Singapore has been consistently ranked among the top countries in the world by the OECD's Program for International Student Assessment (PISA) for some time. If parenting is difficult enough as it is, imagine doing it in a country with the smartest kids in the world, which is what PISA is telling us. This book describes our journey as parents in Singapore from infancy to pre-school to the Gifted Education Program to Raffles Institution to getting offers from top universities: Imperial College, University College, NUS College, Nanyang Technological University, Waseda University, among others. It is my hope that this journey will provide a guideline to other parents so that they can do the same or better.
