Tempting Tangents:
A Writer's View of the Internet

Type two hyphens
for a dash.

This is the text of the paper. The first paragraph needs to include an introduction to the paper and capsulize the writer's primary idea. Clever writers will find a way to engage the reader's interest here, with a question, perhaps, or an anecdote.

This is more of the text of the paper, in the body of the essay, where the sentences tend to go on for a bit. Here -- every once in a while -- we will see a short sentence. This sort of thing tends to be rare, however, in such documents, since there tends to be a surfeit of factual information that must be interpreted.

This is an Example of a Section Heading

Here we have moved into a subsection, most likely a bit prematurely, all for the sake of illustrating the proper format for an MLA Style research paper. Section headings can help readers follow the flow of the discussion, but are not required.

You can type
1 or 2 spaces
after a period,
as long as you
are consistent.
