Coe,2012-08 Historically evolution moves at a slow place with advances made by incremental steps Occasionally however when circumstances permit a massive leap catapults a species into a different future Now ten thousand years into such a future humanity has evolved into a barely recognizable form with the ability to manifest multiple personal entities each with a distinctly different physical identity The Exiger hegemony has exploited this evolutionary springboard giving it virtually irresistible military political and even social

advantage as it seeks the utter subjugation of the galaxy Commander Solon Draco lost his parents at ten and that experience shaped his entire future As an adult he dedicates his life to the military For his own reasons he chooses to display only one personality a single minded drive that has propelled him through the ranks When Draco learns that the bearer of the genetic leap that founded his race and the Exiger Empire thousands of years ago has discovered a means to eliminate the change he is dispatched into the past leading an interstellar battle fleet from an even more distant future to foil this plan He knows that if this crucial change is eliminated he his whole race and the future they populate will vanish in an instant As adversaries who are millennia apart race against time on a mission that will carry them to the very end of time everything hangs in the balance What path will humanity tread into the unknown future [InfoWorld](#) ,2006-12-11 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects
