interpreted America and adapted their understanding to bolster China's quest for modernization. Their professions range from diplomacy, business, and science to sports, education, and the arts, but their distinctive stories are united by shared questions: Why did they go to the United States and why did they return to China? What difference did their encounters with America make in their lives and careers? What do their experiences tell us about the complexities of Sino-American interactions? At a time when US-China relations are contentious, this book challenges the idea that American and Chinese interests and values are incompatible. It shows that personal encounters have been instrumental in finding common ground even when there are differences and disagreements. Through vivid and engaging profiles, *Chinese Encounters with America* offers a fresh, nuanced understanding of the world's most pivotal relationship.
