Partnering With Students Mary Jane O'Connell, Kara Vandas, 2015-04-04 Empower students to own their learning The world today needs students prepared to set goals to fail to get up and try a new strategy to fail again and to persist until their goals are realized Therefore we must ask Are all students in our classrooms equipped with the skills and confidence to take ownership of their learning If not what can we do to change that Building on the work of John Hattie Larry Ainsworth and other leaders in the field Partnering With Students Building Ownership of Learning offers a powerful framework to accelerate student motivation and learning This resource is designed to empower teachers and leaders with strategies to develop learners who have the confidence and tools to engage in any challenge By flipping the focus to student ownership of learning the authors provide clear and simple ways to Develop collaborative relationships Jointly establish clear expectations for learning and criteria for success Intentionally build learner strategies that last a lifetime Use formative assessment results to monitor progress Harness the power of reciprocal feedback to improve teaching and learning Empower and motivate students set meaningful goals and prove learning When students are invited to partner and share in the responsibility of learning they become our greatest allies and we will learn as much from them as they will learn from us O'Connell and Vandas provide a wealth of information to educators proving that it is not only important to be student focused but essential if students are to reach their fullest potential In an era where we seemingly complicate things because we can it is refreshing to see a book like this that is clearly written driven by commonsense evidenced by good practice and supported with tools and clear examples Russell J Quaglia President Founder Quaglia Institute for Student Aspirations An extremely rich resource for educators who genuinely want to empower students to be successful in college AND careers The research supported strategies put forth press educators to engage in deep reflection and analysis of their personal beliefs and practices while equipping them with practical techniques to engage students in rigorous relevant ways in the classroom Kim S Benton Chief Academic Officer Deputy State Superintendent Mississippi Department of Education

Relaxation

Techniques E-Book Rosemary A. Payne, Marie Donaghy, 2010-01-26 Payne's Handbook of Relaxation Techniques provides the health care professional with a practical introduction to a variety of approaches to relaxation both somatic and cognitive that may usefully contribute to patient care. Rosemary Payne is an experienced clinical therapist with a deep understanding of the problems facing the busy practitioner. In the 4th edition she combines her experience with that of Marie Donaghy, author, professor of Physiotherapy and member of the British Psychological Society. They aim to provide a quick and informative guide to selecting the most appropriate relaxation technique for each client. Payne's handbook of Relaxation Techniques has, with the past 3 editions, established itself as a unique source book for all those health professionals involved in teaching relaxation. Each technique is easy to teach and use. Helping the clinician to select the appropriate technique. All the methods are suitable for use with both small groups and individuals. Focuses on the practical aspects of relaxation techniques in relation to patient care. Includes cognitive approaches e.g. self-awareness, imagery, autogenics, meditation, and positive self-talk. Also includes somatic approaches e.g. progressive relaxation, stretching, and the Mitchell method. Provides ready-to-use schedules and scripts for working with clients. Discusses the pitfalls as well as the benefits of each method. Fully illustrated with both line drawings and photographs. Evidence-based text is supported by up-to-date references. Aimed at all Health Professions practitioners: Manual Therapists, Chiropractors, Physical Therapists, Complementary Therapists, Clinical Psychologists, Occupational Therapists, Osteopaths, Naturopaths. Completely reorganized. New author. Updated throughout with references and latest evidence in practice. New chapter on Mindfulness. New photographs.
