Critical to all of these is the role of the principal as an essential agent in a school's success. Although these elements may vary from school to school, Johnson argues that together these systems provide a comprehensive mutually reinforcing set of well-orchestrated strategies that can help schools deliver results that exceed the sum of teachers' individual efforts. Since 2000, policy makers and education officials have diligently sought to improve schools by improving the quality of individual teachers. However, even if those teachers are skilled and committed, the schools where they work are all too often disjointed, dysfunctional organizations that serve no one well. Where Teachers Thrive explains clearly how educators within a school can join together to adopt systems of practice that ensure growth and success by all teachers and their students.

Teaching to Exceed the English Language Arts Common Core State Standards Richard Beach, Allen Webb, Amanda Haertling
Thein, 2015-12-07
Timely, thoughtful, and comprehensive, this text directly supports pre-service and in-service teachers in developing curriculum and instruction that both addresses and exceeds the requirements of the Common Core State Standards. Adopting a critical inquiry approach, it demonstrates how the Standards' highest and best intentions for student success can be implemented from a critical, culturally relevant perspective, firmly grounded in current literacy learning theory and research. It provides specific examples of teachers using the critical inquiry curriculum framework of identifying problems and issues, adopting alternative perspectives, and entertaining change in their classrooms to illustrate how the Standards can not only be addressed but also surpassed through engaging instruction. The Second Edition provides new material on adopting a critical inquiry approach to enhance student engagement and critical thinking, planning instruction to effectively implement the CCSS in the classroom, fostering critical response to literary and informational texts using YA literature, and literature by authors of color, integrating drama activities into literature and speaking/listening instruction, teaching informational/explanatory, argumentative, and narrative writing, working with ELL students to address the language Standards, using digital tools and apps to respond to and create digital texts, employing formative assessment to provide supportive feedback, preparing students for the PARCC and Smarter Balanced assessments, using the book's wiki site <http://englishccss.pbworks.com> for further resources.
