STEM Education 2.0 Alpaslan Sahin, Margaret J. Mohr-Schroeder, 2019-08-12 STEM Education 2.0 discusses the most recent research on important selected K 12 STEM topics by synthesizing previous research and offering new research questions. The contributions range from analysis of key STEM issues that have been studied for more than two decades to topics that have more recently become popular such as maker space and robotics. In each chapter nationally and internationally known STEM experts review key literature in the field, share findings of their own research with its implications for K 12 STEM education and finally offer future research areas and questions in the respected area they have been studying. This volume provides diverse and leading voices in the future of STEM education and STEM education research.

Living Things for Grades 3-5 Jennifer E. Lawson, 2021-09-13 *Living Things for Grades 3-5* from Hands On Science for British Columbia. An Inquiry Approach completely aligns with BC's New Curriculum for science. Grounded in the Know-Do-Understand model, First Peoples knowledge and perspectives, and student-driven scientific inquiry, this custom-written resource emphasizes Core Competencies so students engage in deeper and lifelong learning, develops Curricular Competencies as students explore science through hands-on activities, fosters a deep understanding of the Big Ideas in science. Using proven Hands On features, *Living Things for Grades 3-5* contains information and materials for both teachers and students, including Curricular Competencies correlation charts, background information on the science topics, complete easy-to-follow lesson plans, digital reproducible student materials, and materials lists. Innovative new elements have been developed specifically for the new curriculum: a multi-age approach, a five-part instructional process (Engage, Explore, Expand, Embed, Enhance), an emphasis on technology, sustainability, and personalized learning, a fully developed assessment plan for summative, formative, and student self-assessment, a focus on real-life Applied Design Skills and Technologies, learning centres that focus on multiple intelligences and universal design for learning (UDL), place-based learning activities, Makerspaces, and Loose Parts. In *Living Things for Grades 3-5*, students investigate plants and animals, Core Competencies, and Curricular Competencies will be addressed while students explore the following Big Ideas: Plants and animals have observable features; Living things have features and behaviours that help them survive in their environment; Living things have life cycles adapted to their environment.
