ABC Company

24 Doe Street, Sometown XX19 1XX

Dear Mr Streiff,

When I came across your opening for a sales assistant at ABC Company, I was beyond thrilled. I would value the opportunity to contribute the same award-winning customer service as I have at my current role at XYZ Corp.

I have seen that ABC Company will soon be relocating to a larger site, following three consecutive years of increasing trade. My most recent experience involved a similar situation. As a retail assistant at XYZ Corp I assisted with a move to a new 200 square metre site, helping to successfully adapt visual merchandising for the larger space. To further assist the move I helped train 5 new incoming staff to manage the increase in footfall.

After the move to the larger premises my own sales figures improved by 50% per month, contributing to an overall sales increase of £700,000 per annum. I'd love to be able to help achieve the same success for a vibrant local business such as ABC Company.

Thanks so much for taking the time to consider my application. Please do give me a call at your convenience, so we can discuss the role further. I'd love the opportunity to develop my skills at a business that's a Merseyside success story.

Yours sincerely,

Sophie Spencer

Luo,2020-02-07 This book employs actor network theory ANT to explore the making of the English translation of a work of Chinese canonical fiction Journey to the West demonstrating how ANT as applied to Translation Studies can contribute to a richer understanding of the translation process The volume builds on previous research to apply ANT theory to translation studies by looking in depth at a single work highlighting the unique factors underpinning the making of Monkey Arthur Waley s English translation of the Chinese classic Journey to the West which make the work an ideal candidate for showing ANT theory in practice in translation Luo uses an in depth exploration of the work to examine the ways in which both human and nonhuman translation actors and agents interact in different ways in the publication of this translation showcasing them as dynamic changing and active participants whose roles shifted over the course of the translation process rather than as fixed entities as traditionally categorized in existing research The book moves beyond a descriptive account of an ANT based case study toward offering a systematic theoretical and methodological framework of ANT based translation studies using the conclusions drawn from its application to a single work to suggest a way forward for applying ANT in translation production on a wider scale This book will be of interest to scholars in translation studies sociology and comparative literature particularly those interested in actor network theory or network studies and their application to related disciplinary fields
