The Wave Theory of Difference and Similarity Stephen W. Link, 2020-03-09 Two experimental procedures prompted the empirical development of psychophysical models those that measure response frequency often referred to as response probability and those that measure response time sometimes referred to as reaction time The history of psychophysics is filled with theories that predict one or the other of these two responses Yet the persistent reappearance of empirical relationships between these two measures of performance makes clear the need for a theory that both predicts and relates these two measures Most likely both response measures are the result of a single process that generates empirical laws relating response time and response probability It is this process its theory description and application that is the topic of The Wave Theory of Difference and Similarity Originally published in 1992 the author of this book has set out to provide a theoretical foundation for formulating new theories that systematize earlier results and to stimulate new concepts and introduce new tools for exploring mental phenomena and improving mental measurement

Programming the Universe Seth Lloyd, 2007-03-13 Is the universe actually a giant quantum computer According to Seth Lloyd the answer is yes All interactions between particles in the universe Lloyd explains convey not only energy but also information in other words particles not only collide they compute What is the entire universe computing ultimately Its own dynamical evolution he says As the computation proceeds reality

Katz, M. Rubenstein, 2003-06-27 This volume centres on the creation of varied forms of individual and group identity in Taiwan and the relationship between these forms of identity both individual and collective and patterns of Taiwanese religion politics and culture The contributors explore the Taiwanese people's sense of who they are attempting to discern how they identify themselves as individuals and as collectives and then try to determine the identity roles individuals and groups construct for themselves Ranging from the

local essays to the national level and within the larger Chinese cultural religious universe these essays explore the complex nature of identity role and the processes of identity formation which have shaped Taiwan's multileveled past and its many faceted present

Reading the Unseen Stephen Ratcliffe, 2010 Drama Literary Nonfiction Literary Criticism

READING THE UNSEEN OFFSTAGE HAMLET is about the presence and significance of offstage action in Hamlet things we hear about in words but do not see performed physically onstage things like King Hamlet's murder while he was sleeping in his orchard Ophelia's death in the glassy stream Hamlet's visit to Ophelia's closet with his doublet all unbraced Gertrude and Claudius having sex in the rank sweat of an enseamed bed In a series of brilliantly original close readings Ratcliffe examines how it is that passages such as these make physically absent things verbally present how they show us things we do not actually see how they bring us face to face with the Words words words that are what Hamlet is he argues most of all about
