### The Driver Qualification Test (DQT)

The DQT is a touch-screen, computer-based test which assesses:

- Your knowledge of safe driving practices.
- Your ability to recognise and respond to potentially dangerous situations and react appropriately.

The DQT is one test made up of two parts:

- **Part 1** tests advanced safe driving knowledge (the Knowledge Test or KT).
- **Part 2** tests advanced hazard perception skills (the Hazard Perception Test or HP).

It's a bit like a test made up of an advanced version of the Driver Knowledge Test (DKT) that you passed to get a learner licence and the Hazard Perception Test (HPT) that you passed to get a P2 licence.

However, the DQT is harder and more complex than the DKT or the HPT. For example, the DQT knowledge test questions have four, not three answer alternatives and the questions will be more difficult (especially if you haven't learned the material in this handbook). Community Language Interpreting provides translation resource materials for teachers and students. Additionally for those who plan to work as professional interpreters in Australia it provides guidelines and intensive practice for interpreting in community settings. The introduction gives an overview of interpreting and outlines how to use the book. Lee and Buzo discuss the different modes of interpreting, note taking techniques and professional ethics. The ten chapters each deal with a discrete area of community interpreting. Beginning with an introduction, the authors then establish the social and governmental context to the area in question. This is followed by preparation tasks and useful website links which encourage readers to do more research on the topic to broaden their background knowledge, general knowledge and knowledge of terminology relevant to the field in question. Tasks include questions on the ethical aspects of professional practice. Dialogue interpreting scripts and sight translation texts are provided, followed by consecutive interpreting passages. National Authority for Accreditation of Translators and Interpreters (NAATI) test specifications are followed and all dialogue interpreting scripts are original. As well, website links are included for source and full text access to other scripts of interest. Community Language Interpreting also features two units on interpreting in business settings and for visiting delegations. This is because these topics, while not strictly community interpreting topics, are practical and routinely included in accreditation tests.

**Advanced Criminal Litigation in Practice 2008** City Law School (London, England), 2008. Specifically designed and written for use on the advanced criminal litigation option on the Bar Vocational Course, this manual adopts a pragmatic approach to its treatment of criminal law and focuses specifically on those areas of criminal law which are most important to the junior criminal practitioner and which they are most likely to encounter during their first years in practice. Split into three distinct parts, the first part of the manual deals with the crucial procedural aspects of criminal law which will be encountered in practice, including the scope of legal powers to enter and search premises and abuse of process. Part II covers selected areas of the substantive law which are particularly relevant to the junior practitioner, including public order offences, dangerous drugs, offensive weapons and drink driving and road traffic offences. The final section features an extended case study focusing on features which the practitioner will commonly encounter in practice, including police witnesses, custody records and conflicts of interest between defendants. Including realistic case papers and typical exhibits, this section also features a set of tasks to perform and a sample answer, offering trainee barristers the opportunity to practise applying their skills in a criminal litigation context.
