Southeast Asia It has been loved by readers ever since its publication in 1869 Despite numerous modern reprints with appreciative introductions this is the first and long overdue annotated edition in English This edition explains updates and corrects the original text with an historical introduction and hundreds of explanatory notes Wallace left hundreds of people places publications and species unidentified He referred to most species only with the scientific name current at the time Whenever available the common names for species have been provided and scientific names updated The content of the book has never been thoroughly analysed and compared against other contemporary sources It turns out that the book contains many errors This includes not just incorrect dates and place names but some of the most remarkable anecdotes for example the dramatic claim that tigers kill on an average a Chinaman every day in Singapore or that a Dutch Governor General committed suicide by leaping from a waterfall on Celebes By correcting the text of the Malay Archipelago against Wallace's letters and notebooks and other contemporary sources and by enriching it with modern identifications this edition reveals Wallace's work as never before

wide array of topics from Malaysian culture and history to nature and wildlife It is essential reading for anyone interested in Malaysia A century and a half after it was first published this book remains one of the great classics of natural history and travel perhaps the greatest Alfred Russel Wallace 1823 1913 deserves equal billing with Charles Darwin for his independently drawn but parallel conclusions on the theory of evolution Darwin himself called Wallace generous and noble and referred favorably to his work in later editions of *The Origin of Species* *The Malay Archipelago* is an extraordinarily accessible book There is a wealth of detail about pre modern life in the Indonesian archipelago which Wallace accumulated on over 60 separate journeys spanning 14 000 miles He was equally fascinated by the exotic peoples flora and fauna he encountered in his epic travels A mark of his achievement lies in the size of the collections he bequeathed to British museums some 125 000 specimens ranging from large mammals to tiny insects exotic butterflies and splendid birds of paradise His basic thesis stands to this day that two separate biological zones border these islands separated by the deep water channel now known as the Wallace Line running between Bali and Lombok which only a relative handful of species have crossed The islands east of Bali in effect form a transitional zone where some of the world s strangest creatures are found

The Burning Earth Sunil Amrith, 2024-09-24 Finalist for the 2025 Dayton Literary Peace Prize Longlisted for the 2025 PEN E O Wilson Literary Science Writing Award One of *The New Yorker* s Essential Reads of 2024 One of NPR s Books We Love for 2024 A brilliant paradigm shifting global history of how humanity has reshaped the planet and the planet has shaped human history over the last 500 years In this magisterial book historian Sunil Amrith twins the stories of environment and Empire of genocide and eco cide of an extraordinary expansion of human freedom and its planetary costs Drawing on an extraordinarily rich diversity of primary sources he reckons with the ruins of Portuguese silver mining in Peru British gold mining in South Africa and oil extraction in Central Asia He explores the railroads and highways that brought humans to new terrains of battle against each other and against stubborn nature Amrith s account of the ways in which the First and Second World Wars involved the massive mobilization not only of men but of other natural resources from around the globe provides an essential new way of understanding war as an irreversible reshaping of the planet So too does this book reveal the reality of migration as consequence of environmental harm The imperial globe spanning pursuit of profit joined with new forms of energy and new possibilities of freedom from hunger and discomfort freedom to move and explore has brought change to every inch of the Earth Amrith relates in gorgeous prose and on the largest canvas a mind altering epic vibrant with stories characters and vivid images in which humanity might find the collective wisdom to save itself

The Vanishing Mew Gull Ray Reedman, 2024-04-02 Modern taxonomic studies have created a revolution in the genetic sequencing of bird families and have resulted in confusing changes to the names of many species particularly in the scientific nomenclature This book presents all the birds of the Western Palaearctic under the latest taxonomic scheme followed by the International Ornithological Congress The geographic scope embraces about 10% of the world s bird species covering almost 1 100 in total

Each species is considered in order discussing aspects of both vernacular and scientific names as well as supplementary information such as status appearance and history An introduction elucidates the history of the linguistic elements concerned taking into account the major languages of Europe and offers a condensed analysis of the authority for any bird names Good dictionaries of avian names are thin on the ground most are only partial in coverage and the majority are word centric Hence British and European birds have long lacked a work that truly wraps the names both vernacular and scientific around the birds themselves This reference will be appeal to any bird enthusiast but also to those seeking out the background on particular species or simply trying to make some sense of what can seem like a somewhat confused scenario Filling a critical gap it will be a useful tool for any student of ornithology whatever their level of experience **Wild Track** Seán

Street,2023-06-15 PROSE AWARDS ENVIRONMENTAL SCIENCE FINALIST 2024 Wild Track is an exploration of birdsong and the ways in which that sound was conveyed described and responded to through text prior to the advent of recording and broadcast technologies in the late 19th and early 20th centuries Street links sound aesthetics radio natural history and literature to explore how the brain and imagination translate sonic codes as well as the nature of the silent sound we hear when we read a text This creates an awareness of sound through the tuned attention of the senses learning from sound texts of the natural world that sought and seek to convey the intensity of the sonic moment and fleeting experience To absorb these lessons is to enable a more highly interactive relationship with sound and listening and to interpret the subtleties of audio as a means of expression and translation of the living world *The Malay Archipelago, Vol 1* Alfred Russel
