Board Game Name			Author		
	Below Basic	Basic	Proficient	Advanced	Score
<b>Practicality</b>	The game would take considerable effort to set up and play...more effort than it's worth.	The game would take a fair bit of effort to set up and play in the chosen context.	The game is fairly easy to set up and play, but a few glitches are apparent.	The game is very easy to set up and play in the context it was designed for.	
<b>Rules Simplicity</b>	Rules are unclear and too long. There are rules that add complexity without adding to playability or learning.	The rules are not entirely clear or complete. There are rules that could be eliminated without harming the game.	Rules are fairly short, clear and complete, but could be streamlined a bit.	Rules are short, clear and complete.	
<b>Instructional effectiveness</b>	The content is incidental. One can play without learning much.	Significant cognitive effort is spent on things that have nothing to do with the content.	Winning and learning are closely entwined, though some mental effort is spent on aspects that are just about the game.	Winning the game requires learning the content. The two are matched completely.	
<b>Elegance</b>	Elements of the game contradict elements of the content and/or seem gratuitous or merely decorative.	Elements of the content are used as elements of the game, but it seems a bit contrived.	There is solid congruence between the game elements and content elements.	Game elements and content elements are mapped onto each other in multiple ways that seem surprising and apt.	
<b>Research</b>	No bibliography.	Has a bibliography but has many errors.	Has bibliography but may have a few errors.	Showed additional research with correctly cited bibliography.
