

# Let's Go Fly a Kite

**Answer the questions.**

- 1) How many trees are there?
- 2) How many birds are there in the sky?
- 3) How many kites are there?
- 4) How many houses are there?
- 5) Is the boy happy or sad?
- 6) Is it windy or is it raining?
- 7) Is the boy holding a kite or a bag?

**Follow the instructions:**

Colour the kite red and blue, with yellow ribbons.

Colour the boy's hat orange and green. Colour his scarf purple.

Colour his jacket brown and his trousers black. His trainers are pink.

Yesterday it was very windy so Balal decided to go out. He put his hat and coat on because it was cold. Then he put on a scarf and gloves. He decided to fly his kite. Balal's kite has two red triangles and two blue triangles. Balal went to the big field. He took his kite. The big field is near Balal's house. Balal felt happy. The wind blew and it took his kite high in the sky. Balal watched it and he smiled. Then he saw three birds in the sky and he felt happy again. Then Balal thought about his friend Mario. Mario was at home because he was ill. Poor Mario, thought Balal. Later, he went to the shop and bought chocolates for his friend.

Neuman, 1986 Drawing on communications psychological and educational studies this paper examines television's influence on reading performance and school achievement The first section of the paper reviews and synthesizes major studies dealing with the introduction of television in a community and with correlations between television use and school achievement pointing out that many of the studies have flawed methodologies and weak links between theory and methodology The second section of the paper synthesizes the results of eight statewide reading assessments and a secondary analysis of the 1984 National Assessment of Educational Progress using hypotheses based on four theories of displacement the idea that watching television replaces other activities in children's lives It concludes that television viewing is associated with a different set of needs and gratifications than reading The report includes extensive tables of data and eight pages of references FL *Problematizing the Profession of Teaching from an Existential Perspective* Aaron S. Zimmerman, 2022-06-01 Teachers not only serve as caretakers for the students in their classroom but also serve as stewards for society's next generation In this way teachers are charged with responsibility for the present and the future of their world Shouldering this responsibility is no less than an existential dilemma that requires not only professional solutions but also personal responsibility rooted in subjective authenticity In the edited volume authors will explore how the philosophy of Existentialism can help teachers teacher educators educational researchers and policymakers better understand the existential responsibility that teachers shoulder The core concepts of Existential philosophy explored in this edited volume imply that a teacher's lived experience cannot be defined solely by professional knowledge or dictates Teachers have the capacity to create subjective meaning through their own agency and there is no guarantee that those subjective meanings will accord with professional dictates Furthermore there is no guarantee that professional dictates are more valid than the existential realities of individual teachers The philosophy of Existentialism encourages individuals to reflect on the existential realities of isolation freedom meaninglessness and death in an effort to propel individuals towards more authentic ways of engaging in the world The chapters of this edited volume advance the argument that being and becoming a teacher must be understood at least in part from the subjective perspective of the individual and that teachers are responsible for authoring the meaning of their lives and of their work ENDORSEMENTS At a time when the purpose of education is increasingly conceived in terms of attaining skills necessary for the job market and teaching and learning are assessed in terms of objective outcomes this collection of fresh essays on the existential dimension of education as an institution offers an indispensable corrective In wide ranging reflections on the professional and inter personal aspects of education the authors

show how existentialism's emphasis on subjectivity, authenticity, and lived experience can enrich our thinking about teaching and learning and improve our practices in the classroom as it exists now. Any educator seriously interested in his or her profession will find timely insights in this thoughtfully conceived volume.

Steven Crowell, Rice University

Historically, education and educational science have been torn between, on the one hand, ideas stressing technical rationality, efficiency, and evidence-based approaches, and on the other hand, ideas highlighting the need for deeper understandings and imaginative orientations. In the light of these trends, the book *Problematizing the Profession of Teaching from an Existential Perspective* is a fresh contribution that offers new insights to the field of teacher professionalism and teacher development. I recommend this book to everyone who is interested in gaining a deeper understanding of what it means to be and become a teacher.
