## The Driver Qualification Test (DQT)

The DQT is a touch-screen, computer-based test which assesses:

- Your knowledge of safe driving practices.
- Your ability to recognise and respond to potentially dangerous situations and react appropriately.

The DQT is one test made up of two parts:

- **Part 1** tests advanced safe driving knowledge (the Knowledge Test or KT).
- **Part 2** tests advanced hazard perception skills (the Hazard Perception Test or HP).

It's a bit like a test made up of an advanced version of the Driver Knowledge Test (DKT) that you passed to get a learner licence and the Hazard Perception Test (HPT) that you passed to get a P2 licence.

However, the DQT is harder and more complex than the DKT or the HPT. For example, the DQT knowledge test questions have four, not three answer alternatives and the questions will be more difficult (especially if you haven't learned the material in this handbook). The hazard perception questions are longer and may require multiple responses. As the diagram shows, the DQT is the last
