Jacobus, 2005-08-05     **Trained Capacities** Brian Jackson, Gregory Clark, 2014-01-07 A collection examining Dewey's influence on effective communication in a healthy democratic practice The essays in this collection written by sixteen scholars in rhetoric and communications studies demonstrate American philosopher John Dewey's wide ranging influence on rhetoric in an intellectual tradition that addresses the national culture's fundamental conflicts between self and society freedom and responsibility and individual advancement and the common good Editors Brian Jackson and Gregory Clark propose that this influence is at work both in theoretical foundations such as science pragmatism and religion and in Dewey's debates with other public intellectuals such as Jane Addams Walter Lippmann James Baldwin and W E B Du Bois Jackson and Clark seek to establish Dewey as an essential source for those engaged in teaching others how to compose timely appropriate useful and eloquent responses to the diverse and often contentious rhetorical situations that develop in a democratic culture They contend that there is more at stake than instruction in traditional modes of public discourse because democratic culture encompasses a variety of situations private or public civic or professional where people must cooperate in the work of advancing a common project What prepares people to intervene constructively in such situations is instruction in those rhetorical practices of democratic interaction that is implicit throughout Dewey's work Dewey's writing provides a rich framework on which a distinctly American tradition of a democratic rhetorical practice can be built a tradition that combines the most useful concepts of classical rhetoric with those of modern progressive civic engagement Jackson and Clark believe Dewey's practice takes rhetoric beyond the traditional emphasis on political democracy to provide connections to rich veins of American thought such as individualism liberalism progressive education collectivism pragmatism and postindustrial science and communication They frame Dewey's voluminous work as constituting a modern expression of continuing education for the trained capacities required to participate in democratic culture For Dewey human potential is best realized in the free flow of artful communication among the individuals who together constitute society The book concludes with an afterword by Gerard A Hauser College Professor of Distinction in the Department of Communication at the University of

Colorado Boulder      *Responsible Pedagogy* Eric Detweiler, 2022-10-25 In recent decades public higher education has faced perpetual crises As states slash investment in postsecondary education and for profit entities seek to supplant public colleges and universities these public institutions have tried to compete by maximizing efficiency namely by downplaying and outsourcing the labor of teachers Responsible Pedagogy makes a fresh case for the importance and value of public higher education and the work of teaching In making this case Eric Detweiler surveys the history of rhetoric and writing in postsecondary education looking in particular at the teacher student relationship He finds that from the Socratic method to medieval exercises from MOOCs to remote asynchronous learning the balance of authority and agency in the classroom is often precarious But the problem goes deeper Underlying both authority and agency is the value of mastery which the teacher is to impart to the student It is this emphasis on mastery Detweiler argues that distorts the proper relation between the student and teacher a relationship in which they are responsible for and vulnerable to each other Drawing on contemporary ethics rhetorical theory and critiques of practices in the online classroom Detweiler develops a pedagogy of responsibility and shows how it can be applied in writing and communication curricula assignments and teacher student interactions Rehabilitating the proper role of the teacher Responsible Pedagogy calls into question our newfound trust in educational technology and points the way to a better more effective pedagogy      **Ways of Reading 7e + Rules for Writers 5e + I-claim** David Bartholomae, Diana Hacker, Anthony Petrosky, Patrick Clauss, 2005-11-15      **A World of Ideas 7th Ed + Rules for Writers 6th Ed with Tabs** Lee A.
