Rccg Marriage Manual:

Christianity, Sexuality and Citizenship in Africa Adriaan van Klinken, Ebenezer Obadare, 2020-06-04 This book explores the interconnections between Christianity sexuality and citizenship in sub Saharan Africa chronicling the ways in which citizenship in the region has undergone profound changes in recent decades as a result of growing interaction between Christianity and politics the impact of the HIV epidemic debates about women s reproductive rights and the growing visibility of lesbian gay bisexual and transgender LGBT communities Case studies examine the emergence of Christianity especially in its Pentecostal Charismatic forms as a public religion and how this emergence has meant that Christian actors beliefs and practices have increasingly come to manifest themselves in the public sphere The contributors assess how many political and religious leaders are invested in a popular ideology of the heterosexual family as the basis of nation building and how this defines narratives of nationhood and shapes notions of citizenship Additional case studies focus on the emergence of sexuality as a critical site of citizenship and nationhood in postcolonial Africa and address the difficulties that LGBT communities face in claiming recognition from the state Offering case studies from across sub Saharan Africa and spanning several academic disciplines and critical perspectives this book will be of interest to researchers seeking to understand the complex intersections of religion sexuality politics and citizenship across the region This book was originally published as a special issue of Citizenship Studies
