Six-Component Universal Remote

Congratulations on your purchase of this six-component universal remote. This universal remote controls up to six electronic components and makes logging remote controls a thing of the past. Your remote is guaranteed to work with all brand-name components. This remote is unusually versatile because it has over 4000 keys that you can program to control any video component. The six-component universal remote is easy to set, tune for programs, and gives you control as the result of one simple step.

CODE BOOK

programming information is provided in the manual and code book in the remote's front panel.

Step 1: The manufacturer's name is already programmed in your universal RCR6373, RCR6473, and PROSCENIUM-branded TV's, VCR's, DVD players, and satellite systems. Just press the corresponding key (TV, VCR, DVD, SAT, etc.) for the device you want to control.

Find and Information

For more information, please refer to the manual and code book in the remote's front panel.

Insert the Batteries

1. Remove the battery compartment cover.
2. Insert the batteries, matching the (+) and (-) marks inside the battery compartment.
3. Push the battery cover back into place.

When replacing batteries, try not to press any key after you've taken the old batteries out. Pressing any while replacing batteries causes the remote to lose the programming you've programmed. This will need to be programmed again.

Battery Precautions

- Do not mix old and new batteries.
- Do not mix alkaline, standard (non-rechargeable), or rechargeable (nickel-cadmium) batteries.
- Always insert old, used, or worn-out batteries properly and upside or down of them in accordance with Local and National Regulations.

Battery Saver

Your universal remote control saves battery power by automatically turning off any key if pressed for more than 60 seconds. This saves your battery life should your remote get stuck in a place where the keys remain depressed, such as between your cushions.

Care and Maintenance

- Keep the remote dry. If it gets wet, wipe it dry immediately.
- Use and store the remote only in normal temperatures.
- Handle the remote gently and carefully. Don't drop it.
- Store the remote away from dust and dirt.
- Wipe the remote with a damp cloth occasionally to keep it looking new.
- Modifying or tampering with the remote's internal components, without authorization and in violation of warranty.

The INPUT and MODE keys have three functions. If TV is pressed through the video or audio source, it is programmed for your TV or audio component. If VCR is pressed through VCR, it is programmed for your VCR. If DVD is pressed through DVD, it is programmed for your DVD player. If SAT is pressed through SAT, it is programmed for your satellite system.
