Palestinian Activism In Israel:

Arab-Jewish Activism in Israel-Palestine Marcelo Svirsky, 2016-04-15 Applying the insights of Deleuze and Guattari's works to Israel Palestine Arab Jewish Activism in Israel Palestine sets out to re conceptualise the relationship between resistance and power in ethnically segregated spaces in general and the Israeli Palestine context in particular Combining many years of ethnographic study and political and social activism with a solid theoretical conceptual framework Marcelo Svirsky convincingly argues that successful efforts to decolonise the region depend on taking the struggle beyond self determination and making it collaborative Decolonisation depends on political and cultural changes that elaborate on the historical partition of social life in the region that have been an issue since the early twentieth century This elaboration means producing a civil struggle aimed at the destabilisation of the Zionist supremacy and resulting in a democratic political community from the Mediterranean Sea to the Jordan River Simply not just another book on Israel and Palestine Arab Jewish Activism in Israel Palestine provides refreshingly new empirical evidence and theoretical analysis on the connection between resistance intercultural alliances civil society and the potential for actualising shared sociabilities in a conflict ridden society An indispensable read to all scholars wishing to gain original insights into the transversal connections which transcend ethnicity

Organizations, Gender and the Culture of Palestinian Activism in Haifa, Israel Elizabeth Faier, 2013-09-13 This book based on 25 months of anthropological fieldwork examines activists and activism in Palestinian nongovernmental organizations in Israel It concentrates on the ways organizations enable certain processes of self identification based on activists constructions of modernity

Arab-Jewish Activism in Israel-Palestine Marcelo Svirsky, 2012 Simply not another book on Israel and Palestine Arab Jewish Activism in Israel provides a refreshingly new empirical evidence and theoretical analysis on the connexion between interethnic alliances civil society and the potentials for actualising shared sociabilities in a conflict ridden society An indispensable read to scholars wishing to gain original insights into transversal connections which transcend ethnicity

Organizations, Gender, and the Culture of Palestinian Activism in Haifa, Israel Elizabeth Faier, 2005 Extrait de l introduction In this book based on 25 months of fieldwork from 1993 1995 and subsequent visits in the summers of 2000 and 2001 the author examines activism and activists in Palestinian nongovernmental organizations in Israel The author argues that organizations enable certain processes of self identification based on activist's constructions of modernity Throughout the text she does not demonstrate how activists conceptualizations of modernity reflect Western academic discourses of modernity Rather it is her intent to unfold and illustrate a vernacular Palestinian and activist discourse of modernity exploring how modernity here is literally an ideology in

the make and subject to improvisation Still these same improvisations carry social weight within the activist community as activists reflect on their roles as emergent modern leaders as well as judge others with reference to these same ideologies

Israeli-Palestinian Activism Alexander Koenler, 2015-03-28 When do words and actions empower When do they betray Based on ethnographic fieldwork this volume tracks the repercussions of advocacy activism against house demolitions in unrecognised Arab Bedouin villages in Israel's southern internal frontier It highlights the repercussions of activism for victims fund raisers and activists The ethnographic episodes show how humanitarian aid intervention and indigenous identity politics can turn into a double edged sword Ironically institutional lobbying for coexistence and its interpretative categories can sometimes perpetuate different forms of subjugation The volume also shows how beyond the institutional lobbying novel figures of activism emerge informal networks create non sectarian cross cutting countercultures and rethink human environment relationships These experimental political subjects redefine the categories of the conflict and elude the logic of zero sum games they point towards a shifting paradigm in current ethnopolitics Koenler outlines an ethnographic approach for the study of social movements that follows multiple relations around mobilisations rather than studying activism in itself This perspective thus becomes relevant for scholars and activists engaged with the Israeli Palestinian conflict and those interested in global rights discourses

Gender and the Israeli-Palestinian Conflict Simona Sharoni,1994-12-31 Simona Sharoni s innovative approach to the conflict in the Middle East stresses the relationship between gender and politics by illuminating the daily experiences of women in Israel and in the occupied West Bank and Gaza Strip Among the issues explored are the connections between the violence of the conflict and the escalation of violence against women the link between militarism and sexism and the role of nationalism in building individual and collective identities Sharoni also shows the impact of Intifada the Palestinian uprising in December 1987 on the Palestinian and Israeli women s movements While women s coalitions such as these are critical subjects in and of themselves the actions of marginalized women are rarely if ever given serious treatment in the study of international relations With this book Sharoni creates an aperture for the emergence of new perspectives and alternative methods in the development of a new vision in global politics and gender equality The interdisciplinary scope of the book will make it valuable to scholars of political science women s studies conflict resolution and Middle East studies **The**
