Palomino English Edition:

Slave Portraiture in the Atlantic World Agnes Lugo-Ortiz, Angela Rosenthal, 2013-09-30 The first book to focus on the individualized portrayal of enslaved people from the late sixteenth century to abolition in 1888 *'Black but Human'* Carmen Fracchia, 2019-10-16 Black but Human is the first study to focus on the visual representations of African slaves and ex slaves in Spain during the Hapsburg dynasty The Afro Hispanic proverb Black but Human is the main thread of the six chapters and serves as a lens through which to explore the ways in which a certain visual representation of slavery both embodies and reproduces hegemonic visions of enslaved and liberated Africans and at the same time provides material for critical and emancipatory practices by Afro Hispanics themselves The African presence in the Iberian Peninsula between the late fifteenth century and the end of the seventeenth century was as a result of the institutionalization of the local and transatlantic slave trades In addition to the Moors Berbers and Turks born as slaves there were approximately two million enslaved people in the kingdoms of Castile Aragon and Portugal The Black but Human topos that emerges from the African work songs and poems written by Afro Hispanics encodes the multi layered processes through which a black emancipatory subject emerges and a black nation forges a collective resistance It is visually articulated by Afro Hispanic and Spanish artists in religious paintings and in the genres of self portraiture and portraiture This extraordinary imagery coexists with the stereotypical representations of African slaves and ex slaves by Spanish sculptors engravers jewellers and painters mainly in the religious visual form and by European draftsmen and miniaturists in their landscape drawings and sketches for costume books **Spanish Art in Britain and Ireland, 1750-1920** Enriqueta Harris, 2010 This is a study wholly devoted to the reception of Spanish art in Britain and Ireland It examines the sources and extent of knowledge of Spanish art in the British Isles during an age of increasing contacts particularly in the aftermath of the Peninsular War "Life Stories of Women Artists, 1550-1800" Julia K. Dabbs, 2017-07-05 The struggles and achievements of forty six notable women artists of the early modern period as documented by their contemporaries are uniquely brought together in this anthology The life stories presented here are foundational texts for the history of art but since most are found only in rare volumes and few have been translated into English until now they have been generally inaccessible to many scholars Originally published in biographical compendia such as Vasari's Lives of the Artists the writings included here document not only the lives of relatively well known women artists such as Artemisia Gentileschi and Sofonisba Anguissola but also those who have languished in obscurity like Anna Waser and Li Yin Each life story is preceded by a brief introduction to the artist as well as to her biographer and the texts themselves are annotated to provide necessary clarification Beyond their documentary value these stories provide fascinating insight as to how men commonly characterized women artists as exceptions to their sex and attempted to explain their presence in the male dominated realm of art The introductory chapter to the book explores this intriguing gender dynamic and elucidates some of the strategies and historical context that factored into the composition of

these lives The volume includes an appended index to women artists life stories in biographical compendia of the period

Post/Colonialism and the Pursuit of Freedom in the Black Atlantic Jerome C Branche, 2018-01-19 Post Colonialism and the Pursuit of Freedom in the Black Atlantic is an interdisciplinary collection of essays of wide historical and geographic scope which engages the legacy of diaspora colonialism and slavery The contributors explore the confrontation between Africa's forced migrants and their unwelcoming new environments in order to highlight the unique individual experiences of survival and assimilation that characterized Atlantic slavery As they focus on the African or Afro diasporan populations under study the chapters gauge the degree to which formal independence coming out of a variety of practices of opposition and resistance lasting centuries in some cases has translated into freedom security and a good life By foregrounding Hispanophone Lusophone and Francophone African and Afro descendant concerns over and against an often Anglo centric focus in the field the book brings a more representative approach to the area of diaspora or Black Atlantic studies offering a more complete appreciation of Black Atlantic cultural production across history and across linguistic barriers

Goya Victor I. Stoichita, 2000-01-01 This intriguing book on Goya concentrates on the closing years of the eighteenth century as a neglected milestone in his life Goya waited until 1799 to publish his celebrated series of drawings the *Caprichos* which offered a personal vision of the world turned upside down Victor I Stoichita and Anna Maria Coderch consider how themes of Revolution and Carnival both seen as inversions of the established order were obsessions in Spanish culture in this period and make provocative connections between the close of the 1700s and the end of the Millennium Particular emphasis is placed on the artist's links to the underground tradition of the grotesque the ugly and the violent Goya's drawings considered as a personal and secret laboratory are foregrounded in a study that also reinterprets his paintings

and engravings in the cultural context of his time **Complete Studies on Velázquez** Enriqueta Harris, 2006 Este libro reúne por primera vez todos los escritos dispersos sobre Velázquez publicados por Enriqueta Harris en inglés y en español desde 1950 artículos en revistas especializadas ensayos para catálogos de exposiciones sobre el artista y reseñas de libros y exposiciones de tema velazqueño Complemento necesario de su clásico libro sobre el artista estos 40 textos permiten recorrer toda una vida dedicada al estudio jalonada de descubrimientos que han cambiado en buena medida nuestro conocimiento moderno sobre Velázquez A Dictionary of Slang and Unconventional English Eric Partridge, 2006-05-02 The definitive work on the subject this Dictionary available again in its eighth edition gives a full account of slang and unconventional English over four centuries and will entertain and inform all language lovers Mario Vargas Llosa and the Persistence of Memory Miguel Ángel Zapata, 2006 Editado en idioma inglés este tributo a Mario Vargas Llosa y sus obras reúne los ensayos preparados en su honor en la Universidad de Hofstra noviembre del 2003 También se incluye dos entrevistas y una selecta bibliografía

Referring to discourse participants in Ibero-Romance languages Pekka Posio, Peter Herbeck, 2023-09-29 This volume brings together contributions by researchers focusing on personal pronouns in Ibero-Romance languages going beyond the well established variable of expressed vs non expressed subjects While factors such as agreement morphology topic shift and contrast or emphasis have been argued to account for variable subject expression several corpus studies on Ibero-Romance languages have shown that the expression of subject pronouns goes beyond these traditionally established factors and is also subject to considerable dialectal variation One of the factors affecting choice and expression of personal pronouns or other referential devices is whether the construction is used personally or impersonally The use and emergence of new impersonal constructions eventually also new impersonal pronouns as well as the variation found in the expression of human impersonality in different Ibero-Romance language varieties is another interesting research area that has gained ground in the recent years In addition to variable subject expression similar methods and theoretical approaches have been applied to study the expression of objects Finally the reference to the addressee s using different address pronouns and other address forms is an important field of study that is closely connected to the variable expression of pronouns The present book sheds light on all these aspects of reference to discourse participants The volume contains contributions with a strong empirical background and various methods and both written and spoken corpus data from Ibero-Romance languages The focus on discourse participants highlights the special properties of first and second person referents and the factors affecting them that are often different from the anaphoric third person The chapters are organized into three thematic sections i Variable expression of subjects and objects ii Between personal and impersonal and iii Reference to the addressee

Juan de Pareja: Afro-Hispanic Painter in the Age of Velázquez David Pullins, Vanessa K. Valdés, 2023-04-03 Diego Velázquez's portrait of Juan de Pareja ca 1608-1670 has long been a landmark of European art but this provocative study focuses on its subject an enslaved man who went on to build his own successful career as an artist This

catalogue the first scholarly monograph on Pareja discusses the painter's ties to the Madrid School of the 1660s and revises our understanding of artistic production during Spain's Golden Age with a focus on enslaved artists and artisans. The authors illuminate the highly skilled labor within Seville's multiracial society, the role of Black saints and confraternities in the promotion of Catholicism among enslaved populations, and early twentieth-century scholar Arturo Schomburg's project to recover Pareja's legacy. The book also includes the first illustrated and annotated list of known works attributed to Pareja.

A fascinating journey through a single painting's history, meanings, and associations by one of the great non-fiction writers of this and the last century. Simon Schama, *Financial Times* Acclaimed travel author and art historian Michael Jacobs was haunted by Velázquez's enigmatic masterpiece *Las Meninas* from first encountering it in the Prado as a teenager. In *Everything is Happening*, Jacobs searches for the ultimate significance of the painting by following the many associations suggested by each of its characters, as well as his own relationship to the work. From Jacobs' first trip to Spain to the politics of Golden Age Madrid to his meeting with the man who saved *Las Meninas* during the Spanish Civil War to his experiences in the sunless world of the art history academy, Jacobs delivers a brilliantly discursive meditation on art and life that dissolves the barriers between the past and the present, the real and the illusory. Cut short by Jacobs' death in 2014 and completed with an introduction and coda by his friend and fellow art lover, the journalist Ed Vulliamy, this visionary and often very funny book is a passionate personal manifesto for the liberation of how we look at painting **Dictionary of painters and engravers** Michael Bryan, 1849 *Dictionary of Painters and Engravers, Biographical and Critical* Michael Bryan, 1849
