My Health Technology for Seniors Lonzell Watson, 2016-02-29 A 2017 National Health Information Award Best in Show Winner My Health Technology for Seniors is the first easy guide to today s revolutionary health technologies Learn to use your computer smartphone and other devices to manage your health and get help when you need it Whether it s sleep exercise diet heart health diabetes or asthma this book shows you how to stay healthier happier and in charge of your life With step by step instructions full color screen shots and an easy to read design this shows you how to Succeed at eating right and staying fit with help from new technologies that are fun and easy Sleep better and manage stress more effectively Manage chronic conditions and save money on medications and costly medical procedures Transform your smartphone into a powerful glucose monitor blood pressure monitor and medication usage tracker for asthma and COPD management Track protect and improve your heart health Use in home technology to stay safer and prepare for emergencies Get valuable advice and support from online communities Choose online health resources you can trust And much more This book is the recipient of a 2017 National Mature Media Award These awards recognize the nation's finest marketing communications educational materials and programs designed and produced for older adults A Guide to Undergraduate Science Course and Laboratory Improvements National Science Foundation (U.S.). Directorate for Science Education, 1979 **Interaction** Alethea Blackler, 2018-07-03 This book explores recent research in intuitive interaction worldwide by a range of leading academics and practitioners in the field It builds on past work as it ventures into new areas such as how users perceive intuitiveness of an interface how people experience intuitive interaction subjectively and how we can use such understanding to design more engaging experiences. The book addresses how intuitive interaction is understood in different academic disciplines and how it has been researched in various parts of the world over the last 18 years It covers how intuitive interaction can be applied in different contexts like large scale urban installations the developing world in older populations and in various industry applications Features Presents varied approaches to intuitive interaction research and application Illustrates how to understand and apply intuitive interaction to interfaces Provides a mix of academic and industry perspectives Explores a variety of contexts for application of intuitive interaction Encompasses design IT business and psychological approaches Ambient Integrated Robotics Thomas Bock, Thomas Linner, Jörg Güttler, Kepa Iturralde, 2019-08-29 Guides readers in the new and growing research field of Ambient Active Assisted Living to understand its multidisciplinary background Optimizing Assistive Technologies for Aging Populations Morsi, Yosry S., Shukla, Anupam, Rathore, Chandra Prakash, 2015-09-14 Demographics reveal that the proportion of elderly individuals in the population is growing at a significant rate Advances in medicine have allowed populations to live longer than ever however ensuring that these individuals have the tools necessary to sustain a productive and happy lifestyle as they age remains a concern Optimizing Assistive Technologies for Aging Populations focuses on the development and improvement of devices

intended to assist elderly individuals in coping with various physical limitations and disabilities Highlighting the available tools and technologies for supporting the mobility agility and self sufficiency of the aging population as well as the challenges associated with the integration of these technologies into the everyday lives of elderly individuals this publication is ideally designed for reference use by healthcare workers medical students gerontologists and IT developers in the field of medicine

Heart Disease Lynne McTaggart, 2016-02-23 One of the most respected U S health magazines cuts through the myths surrounding heart disease to provide effective prevention and treatment strategies Heart disease remains the leading cause of death for both men and women in the West yet so little is known about it Despite the billions of dollars spent on researching its causes conventional medicine continues to offer treatments that are based on false observations Many still believe for example that fatty foods clog the arteries they don't and that LDL cholesterol is the villain it's not it's merely a symptom Find out the real causes how to treat heart disease and how to prevent it in this essential guide What Doctors Don t Tell You is a well respected international magazine that has been researching medicine alternative and conventional since 1989 It is now widely regarded as one of the best health newsletters in the world Now in association with What Doctors Don t Tell You Hay House is publishing an authoritative new series of books each focusing on a common health condition or concern to help readers make informed decisions about their health and the health of their families Technologies Stephen Statler, 2016-06-16 Learn the key standards iBeacon Eddystone Bluetooth 4 0 and AltBeacon and how they work with other proximity technologies Then build your understanding of the proximity framework and how to identify and deploy the best solutions for your own business institutional or consulting needs Proximity technology in particular Bluetooth beacons is a major source of business opportunity and this book provides everything you need to know to architect a solution to capitalize on that opportunity What You ll Learn Understand the disruptive implications of digital physical convergence and the new applications it makes possible Review the key standards that solutions developers need to understand to capitalize on the business opportunity of proximity technology Discover the new phenomenon of beacon networks which will be hugely significant in driving strategic decisions and creating wealth See other technologies in the proximity ecosystem catalyzed by and complementary to Bluetooth beacons including visual light communication magnetic resonance and RFID Examine the Beacosystem framework for analyzing the proximity ecosystem Who This Book Is For Solutions architects of all types venture capitalists founders CEOs strategists product managers CTOs business developers and programmers Stephen Statler is a writer public speaker and consultant working in the beacon ecosystem He trains and advises retailers venue owners VCs as well as makers of beacon software and hardware and is a thought leader in the beacosystem community Previously he was the Senior Director for Strategy and Solutions Management at Qualcomm s Retail Solutions Division helping to incubate Gimbal one of the leading Bluetooth beacons in the market He is also the CEO of Cause Based Solutions creators of Give the Change democratizing philanthropy enabling non profit supporters to donate the
