The Official Railway Guide ,1893 **Auditing and GRC Automation in SAP** Maxim Chuprunov,2013-04-09 Over the
last few years financial statement scandals cases of fraud and corruption data protection violations and other legal violations
have led to numerous liability cases damages claims and losses of reputation As a reaction to these developments several
regulations have been issued Corporate Governance the Sarbanes Oxley Act IFRS Basel II and III Solvency II and BilMoG to
name just a few In this book compliance is understood as the process mapped not only in an internal control system that is
intended to guarantee conformity with legal requirements but also with internal policies and enterprise objectives in
particular efficiency and profitability The current literature primarily confines itself to mapping controls in SAP ERP and
auditing SAP systems Maxim Chuprunov not only addresses this subject but extends the aim of internal controls from legal
compliance to include efficiency and profitability and then well beyond because a basic understanding of the processes
involved in IT supported compliance management processes are not delivered along with the software Starting with the
requirements for compliance Part I he not only answers compliance relevant questions in the form of an audit guide for an
SAP ERP system and in the form of risks and control descriptions Part II but also shows how to automate the compliance
management process based on SAP GRC Part III He thus addresses the current need for solutions for implementing an
integrated GRC system in an organization especially focusing on the continuous control monitoring topics Maxim Chuprunov
mainly targets compliance experts auditors SAP project managers and consultants responsible for GRC products as readers
for his book They will find indispensable information for their daily work from the first to the last page In addition MBA
