Teaching the Entrepreneurial Mindset Across the University Lisa Bosman, Stephanie Fernhaber, 2021-10-07 It stretches no point to

suggest that creativity innovation and risk taking will decide our future societal prosperity We cannot spread those values too widely so having taught engineering faculty in their first book these authors now aim to boost the spirit across all disciplines What a great success for all of us if they succeed Mitchell E Daniels Jr president of Purdue University and former governor of Indiana Despite the relevancy of the entrepreneurial mindset for all career paths only a small percentage of the higher education student population takes part in entrepreneurially minded learning opportunities This gap can be attributed to several factors From a program perspective many degrees are already at credit capacity which allows limited room in the existing curriculum to add new courses From a student perspective entrepreneurship education is thus positioned as optional and requires extra time and in some cases tuition to do so Finally from an educator perspective the majority of faculty members across the university have not been trained in entrepreneurship and may not know where to start Teaching the Entrepreneurial Mindset Across the University An Integrative Approach overcomes these challenges by providing higher education faculty with a toolkit including tips and strategies to integrate the entrepreneurial mindset into existing courses regardless of discipline The book is broken into three core parts Motivation The importance of the entrepreneurial mindset for all students is established Design The Entrepreneurial Mindset Teaching Blueprint is introduced as a tool for integrating entrepreneurially minded curricular learning experiences within existing courses Application Example entrepreneurially minded curriculum from across the university are provided By integrating the entrepreneurial mindset across the curriculum students from all disciplinary backgrounds will be better prepared to enter the workforce solve complex social issues and leverage entrepreneurial thinking in their everyday lives This book is meant for educators who want to make an impact and truly prepare graduates for the real world

MOOCs Jonathan Haber, 2014-09-26 Everything you always wanted to know about MOOCs an account of massive open online courses and what they might mean for the future of higher education The New York Times declared 2012 to be The Year of the MOOC as millions of students enrolled in massive open online courses known as MOOCs millions of investment dollars flowed to the companies making them and the media declared MOOCs to be earth shaking game changers in higher education During the inevitable backlash that followed critics highlighted MOOCs high dropout rate the low chance of earning back initial investments and the potential for any earth shaking game change to make things worse instead of better In this volume in the Essential Knowledge series Jonathan Haber offers an account of MOOCs that avoids both hype and doomsaying Instead he provides an engaging straightforward explanation of a rare phenomenon an education innovation that captures the imagination of the public while moving at the speed of an Internet startup Haber explains the origins of MOOCs what they consist of the controversies surrounding them and their possible future role in education He proposes a new definition of MOOCs based on the culture of experimentation from which they emerged and adds a student perspective missing in most MOOC discussion Haber's unique Degree of Freedom experiment during which he attempted to learn the equivalent of a four year liberal arts degree in one year using only MOOCs and other

forms of free education informs his discussion Haber urges us to avoid the fallacy of thinking that because MOOCs cannot solve all educational challenges they are not worth pursuing and he helps us understand what MOOCs despite their limitations still offer the world His book is required reading for anyone trying to sort out the competing claims aspirations and accusations that color the MOOC debate

Help! I'm Teaching Middle School Science C. Jill Swango, Sally Boles Steward, 2003 Like your own personal survival guide Help! ICOM Teaching Middle School Science is a nontechnical how to manual OCO especially for first year teachers But even veteran teachers can benefit from the plentiful ideas examples and tips on teaching science the way middle schoolers learn best The book covers all the basics what to do on the first day of school including icebreaker activities preparing safe and effective lab lessons managing the classroom working with in school teams as well as parents But its practical OCO and encouraging OCO approach doesn't mean it shortchanges the basics of effective pedagogy You OCO learn how to handle cooperative learning and assessment how to help students write effectively and the importance of modeling for early adolescents *Schoolishness* Susan D. Blum, 2024-05-15 In Schoolishness Susan D Blum continues her journey as an anthropologist and educator The author defines schoolishness as educational practices that emphasize packaged learning unimaginative teaching uniformity constant

evaluation by others arbitrary forms predetermined time and artificial boundaries resulting in personal and educational alienation dependence and dread Drawing on critical progressive and feminist pedagogy in conversation with the anthropology of learning and building on the insights of her two previous books Blum proposes less schoolish ways of learning in ten dimensions to lessen the mismatch between learning in school and learning in the wild She asks if learning is our human superpower why is it so difficult to accomplish in school In every chapter Blum compares the fake learning of schoolishness with successful examples of authentic learning including in her own courses which she scrutinizes critically Schoolishness is not a pedagogical how to book but a theory based phenomenology of institutional education It has moral psychological and educational arguments against schoolishness that as Blum notes rhymes with foolishness

Metabolic Living Harris Solomon, 2016-04-15 The popular narrative of globesity posits that the adoption of Western diets is intensifying obesity and diabetes in the Global South and that disordered metabolisms are the embodied consequence of globalization and excess In *Metabolic Living* Harris Solomon recasts these narratives by examining how people in Mumbai India experience the porosity between food fat the body and the city Solomon contends that obesity and diabetes pose a problem of absorption between body and environment Drawing on ethnographic fieldwork carried out in Mumbai's home kitchens metabolic disorder clinics food companies markets and social services he details the absorption of everything from snack foods and mangoes to insulin stress and pollutants As these substances pass between the city and the body and blur the two domains the onset and treatment of metabolic illness raise questions about who has the power to decide what goes into bodies and when food means life Evoking metabolism as a condition of contemporary urban life and a vital political analytic Solomon illuminates the lived predicaments of obesity and diabetes and reorients our understanding of chronic illness in India and beyond

What's Cooking? James David Cooper,1996 [Rupturing Architecture](#) Sana Murrani,2024-09-05 This is the first book to critically and visually explore the spatial practices of refuge in response to conditions of war violence and displacement experienced in Iraq from 2003 to 2023 Written by an Iraqi architect who has lived through the trauma of several wars 10 years of UN imposed sanctions an invasion and the subsequent violence this book captures a broad spectrum of spatial responses to trauma and presents a fresh perspective on how ordinary Iraqis create refuge across the spaces of the home the

urban environment and border geographies In the face of spatial wounding and the many injustices suffered by the Iraqi people there has also been a wealth of refuge making practices that showcase their creative and imaginative design and adaptability to change and trauma over time Rupturing Architecture employs methods such as creative deep mapping memory work storytelling interviews and case studies of architectural responses to the geographies of war and violence At the core of the book are the lived and felt experiences of fifteen Iraqis from across Iraq whose resilience underscores a broader narrative of spatial justice and feminist spatial practices The book articulates the dual nature of rupturing as both a sign of trauma and a powerful act of resistance examining how these forces shape domesticity urbanity and border spaces The concluding manifesto for spatial justice calls for a deep integrated understanding of place memory and trauma advocating for comprehensive strategies in the making of refuge spaces that also resonate in a wider global context
