**Speaking Politically** Eleni Philippou, 2021-04-21 In this monograph Theodor Adorno's philosophy engages with postcolonial texts and authors that emerge out of situations of political extremity: apartheid South Africa, war-torn Sri Lanka, Pinochet's dictatorship and the Greek military junta. This book is ground-breaking in two key ways: first, it argues that Adorno can speak to texts with which he is not historically associated; and second, it uses Adorno's theory to unlock the liberatory potential of authors or novels traditionally understood to be apolitical. While addressing Adorno's uneven critical response and dissemination in the Anglophone literary world, the book also showcases Adorno's unique reading of the literary text, both in terms of its innate historical content and formal aesthetic attributes. Such a reading refuses to read postcolonial texts exclusively as political documents, a problematic but changing tendency within postcolonial studies. In short, the book operates as a two-way conversation, asking: What can Adorno's concepts give to certain literary texts, but also reciprocally, What can those texts give to our conventional understanding of Adorno and his applicability? This book is an act of rethinking the literary in Adornian terms and rethinking Adorno through the literary. *Read to Achieve Teacher's Resource*

It identifies the greatest challenges these students face, which include lack of prior background knowledge and experience, language deficits (especially in vocabulary and linguistic patterns), and lack of prior success in school. Specific strategies are provided for overcoming each of these challenges and for improving access to the core curriculum. These include backwards lesson planning, pre-teaching, modeling strategies, and reasoning aloud, guiding questions, choral reading, and sentence frames. The guide addresses the impact of the Common Core State Standards on students who are socio-economically disadvantaged, including the likelihood that scaffolding will be needed to narrow the proficiency gap, especially in English Language Arts (ELA). It includes an at-risk flowchart that identifies when and how to provide supports to help students with ELA skills such as reading fluency and comprehension, and mathematics skills such as computation and problem solving. Interventions specifically targeting language development in English Language Learners are included as well.
