A Concise Guide to Improving Student Learning Diane Cummings Persellin, Mary Blythe Daniels, 2023-07-03 This concise guidebook is intended for faculty who are interested in engaging their students and developing deep and lasting learning but do not have the time to immerse themselves in the scholarship of teaching and learning Acknowledging the growing body of peer reviewed literature on practices that can dramatically impact teaching this intentionally brief book Summarizes recent research on six of the most compelling principles in learning and teaching Describes their application to the college classroom Presents teaching strategies that are based on pragmatic practices Provides annotated bibliographies and important citations for faculty who want to explore these topics further This guidebook begins with an overview of how we learn covering such topics such as the distinction between expert and novice learners memory prior learning and metacognition The body of the book is divided into three main sections each of which includes teaching principles applications and related strategies most of which can be implemented without extensive preparation The applications sections present examples of practice across a diverse range of disciplines including the sciences humanities arts and pre professional programs This book provides a foundation for the reader explore these approaches and methods in his or her teaching **Introduction to Rubrics** Dannelle D. Stevens, Antonia J. Levi, 2023-07-03 This new edition retains the appeal clarity and practicality that made the first so successful and continues to provide a fundamental introduction to the principles

and purposes of rubrics with guidance on how to construct them use them to align course content to learning outcomes and apply them in a wide variety of courses and to all forms of assignment Reflecting developments since publication of the first edition the authors have extended coverage to include Expanded discussion on use of rubrics for grading Grading on line with rubrics Wider coverage of rubric types e g holistic rating scales Rubric construction in student affairs Pros and cons of working with ready made rubrics Using rubrics to improve your teaching and for SoTL Use of rubrics in program assessment case study Application of rubrics in the arts for study abroad service learning and students independent learning Up dated literature review

Teaching Middle School Physical Education Bonnie S. Mohnsen,2008 This text describes how to create a programme that addresses the specific needs and capabilities of middle school students while helping them through the transition from childhood to young adulthood This edition is fully updated and revised

Using Rubrics for Performance-Based Assessment Todd Stanley,2021-10-03 Writing a rubric that can accurately evaluate student work can be tricky Rather than a single right or wrong answer rubrics leave room for interpretation and thus subjectivity How does a teacher who wants to use performance based assessment in this day and age of educational data and SMART goals find a way to reliably assess student work The solution is to write clear rubrics that allow the evaluator to objectively assess student work This book will show classroom teachers not only how to create their own objective rubrics which can be used to evaluate performance assessments but also how to develop rubrics that measure hard to assess skills such as leadership and grit and how to empower their own students to create rubrics that are tailored to their work

Rubric Nation Michelle Tenam-Zemach,Joseph E. Flynn,2015-04-01 What is a rubric and how are they being used in teacher education and evaluation When did rubrics become ubiquitous in the field of education What impact do rubrics have on students teachers teacher educators and the educational enterprise This book is an edited volume of essays that critically examine the phenomenon of rubrics in teacher education evaluation and education more broadly Rubrics have seen a dramatic rise in use and presence over the past twenty five years in colleges of education and districts across the country Although there is a wealth of literature about how to make rubrics there is scant literature that explores the strengths and weaknesses of rubrics and the impact the rubric phenomenon is having in reshaping education The chapters included in this edited volume will critically reflect on the contemporary contexts of rubrics and the uses and impact of rubrics in education Since rubrics have become indelible in education it is necessary for a fuller nuanced discussion of the phenomenon Creating a book that explores these aspects of rubrics is timely and fundamental to expanding the discourse on this ubiquitous evaluation tool This book is not meant to be a series of chapters dedicated to best practices for creating rubrics nor is this text meant to present all sides of the rubric discussion Rather this text intends to offer critical polemics about rubrics that can spur greater critical discussion about a phenomenon in education that has largely been unquestioned in the literature

Children's Reading Comprehension and Assessment Scott G. Paris,Steven A. Stahl,2005-03-23 The volume identifies critical issues and cutting

edge research in assessing children's reading comprehension

Virtual and Classroom Learning in Higher Education:

A Guide to Effective Online Teaching Vakul Bansal, 2021-12-03 The recent COVID 19 pandemic has prompted educators to utilize online learning resources in order to comply with public health and social distancing mandates. The transition to virtual classrooms has created several opportunities and challenges for all stakeholders involved in the educational ecosystem. The ability of the classroom instructor to impart learning to students requires considerable adjustments from both students and teachers which can be a new experience for educational professionals. *Virtual and Classroom Learning in Higher Education* serves as a handy guide for instructors to effective online teaching with a focus on higher education. The book presents reviews on different aspects of online teaching distilling key findings in an easy to understand manner for the reader. It provides educators with knowledge which familiarizes them with online teaching models and concepts such as micro learning, synchronous and asynchronous learning, online pedagogy, dynamic learning experience and more. Chapters are contributed by experts in online learning and cover the topic from different angles giving the reader a broad perspective on virtual classrooms. *Virtual and Classroom Learning in Higher Education* is an essential read for administrators and educators involved in higher education settings and general readers who are interested in widening their view of the online teaching model.

New Directions in Assessing Historical Thinking Kadriye Ercikan, Peter Seixas, 2015-02-20 New technologies have radically transformed our relationship to information in general and to little bits of information in particular. The assessment of history learning which for a century has valued those little bits as the centerpiece of its practice now faces not only an unprecedented glut but a disconnect with what is valued in history education. More complex processes, historical thinking, historical consciousness or historical sense making demand more complex assessments. At the same time advances in

scholarship on assessment open up new possibilities For this volume Kadriye Ercikan and Peter Seixas have assembled an international array of experts who have collectively moved the fields of history education and assessment forward Their various approaches negotiate the sometimes conflicting demands of theoretical sophistication empirically demonstrated validity and practical efficiency Key issues include articulating the cognitive goals of history education the relationship between content and procedural knowledge the impact of students language literacy on history assessments and methods of validation in both large scale and classroom assessments New Directions in Assessing Historical Thinking is a critical research oriented resource that will advance the conceptualization design and validation of the next generation of history assessments

Short Cycle Assessment Susan Lang,Betsy Moore,Todd Stanley,2013-09-27 This book shows you how to improve student achievement by providing them with frequent feedback on their work It provides a step by step process to help you write good questions that asses student learning design your own formative assessments administer short cycle assessments analyze and use data to shape instruction prepare your students for high stakes tests and includes activities and forms to walk you through the process step by step

Authentic Assessment and Evaluation Approaches and Practices in a Digital Era ,2021-09-06 In this book 37 international academics illustrate how authentic assessment is an effective measure of intellectual achievement as it requires the demonstration of deep understanding and complex problem solving through the performance of exemplary tasks By exploring the concept of authentic assessment in both tertiary and school education the authors in these chapters argue that authentic assessment is not only the measurement of significant intellectual accomplishments but also an important pedagogical structure Authentic assessment is a concept more closely defined as an umbrella term that seeks to immerse learners in environments where they can gain highly practical and lifelong learning skills Authentic assessment has been on the educational agenda for a number of years and keeps being a powerful tool for assessing students 21st century competencies in the context of global educational reforms Contributors are P nar Aky Id z Fatma Nur Akta Chrysoula Arcoudis Tasos Barkatsas Michael Belcher Antonios Bouras Athina Chalkiadaki Jere Confrey Rebecca Cooper Y ksel Dede Paul Denny Zara Ersozlu Ivan Fortunato Linda Hobbs Marj Horne Fragkiskos Kalavasis Katerina Kasimatis Belinda Kennedy Gillian Kidman Huk Yuen Law Susan Ledger Kathy Littlewood Jiabo Liu Michelle Ludecke Tricia McLaughlin Juanjo Mena Andreas Moutsios Rentzos Greg Oates Anastasia Papadopoulou Fabiano Pereira dos Santos Angela Rogers Gr inne Ryan Rebecca Seah Meetal Shah Hazel Tan Naomi Wilks Smith Dallas Wingrove Qiaoping Zhang and Xiaolei Zhang
