The Russian Church and the Papacy Vladimir Sergeyevich

Solovyov, 2001-01-01 The Russian Church and the Papacy edited by Father Ray Ryland is an abridgement of Vladimir Soloviev's classic work Russia and the Universal Church This is a powerful defense of the papacy from Soloviev a Russian Orthodox theologian who was committed to the cause of Christian unity and spent years attempting to convince his Orthodox brethren to reunite with Rome Soloviev uses Scripture history and hardheaded logic to prove that the papacy is essential to Christian unity and truth and without it the early Christian Church would have disintegrated into hundreds of competing sects

study questions and a reading list *Russia's World Order* Paul Robinson, 2025-04-15 *Russia's World Order* explores the ideas underlying the undeclared New Cold War between Russia and the West. The first Cold War was a struggle between capitalism and communism; most Western politicians and policymakers imagine the new one to be a struggle between democracy and autocracy. *Russia's World Order* explains that in Russian eyes the conflict is about something very different: it is a fight between two incompatible visions of where history is leading. *Russia's World Order* describes the civilizational theory that has come to dominate Russian official discourse and that is being used by the Russian state to justify its clashes with the West. Whereas the West promotes a vision of history that drives all nations toward convergence on a single social, political, and economic model—that of modern Western liberalism—Russia's political leaders increasingly portray the world as consisting of numerous distinct civilizations, each diverging toward its own unique destination. The Russian state portrays itself as defending the right of all civilizations to chart their own independent path of development and is having some success in using this logic to win allies around the world. Paul Robinson recounts how ideas of inevitable convergence once dominated Russian thought as well but were gradually pushed out by civilizational theories. He outlines where these theories came from, what they propose, and how they became popular. *Russia's World Order* thereby reveals the true nature of today's New Cold War and the challenge that Russian civilizationism poses to the West.

A Testimony for an Universal Church John FLEMING (of Airdrie.), 1826 **Byzantium - Rus - Russia** Simon Franklin, 2024-10-28 The Christian culture of Rus, the medieval precursor of modern Russia, Ukraine, and Belarus is sometimes presented either as a reflection of an indigenous spirituality wrapped in borrowed Byzantine forms or by contrast as merely a provincial version of its Byzantine original. The essays in this volume start from the premise that neither view is adequate. The history of culture, even of a self-consciously imitative culture, involves a continual process of inevitable mistranslation as the imported models are reshaped and reinterpreted according to local resources, circumstances, and preconceptions. These essays explore aspects of the translation of culture on several levels, from the semantic processes of the actual translation of written texts from Greek into Slavonic through to larger issues of ideology and identity. They consider both the initial stages of such translation from Byzantium to Rus and some of the subsequent retranslations of the Byzantine heritage in the culture of Rus and eventually of Russia.

The Religious Factor in Russia's Foreign Policy Alicja Curanović, 2012-03-15 This book examines how religion interacts with Russian foreign policy, arguing that religion is an important and neglected factor in shaping Russia's outlook towards international relations. It surveys the importance of religion for social life in Russia, both historically and at present, and considers a wide range of Russian attitudes which are affected by religion, such as Russian nationalism, notions of Slavic solidarity, the divine mission of Russian Orthodox civilisation, Russian imperialism, Russia's special approach towards Islam. The book discusses how religious organizations, especially the Russian Orthodox Church, operate in international relations, pursuing their own interests and those of the Russian state, and explores how religious ideas

and culture linked to religion impinge on Russian attitudes and identity and thereby affect policy and demonstrates how policy influenced by religion impacts on Russian foreign policy in practice in a wide range of examples including Russia's relations with other orthodox countries non orthodox Western countries Muslim countries Israel and the Vatican
