Pacing Superkids Lesson Plans:

Teaching Middle School Mathematics Douglas K. Brumbaugh, 2013-05-13 Middle school teaching and learning has a distinct pedagogy and curriculum that is grounded in the concept of developmentally appropriate education. This text is designed to meet the very specific professional development needs of future teachers of mathematics in middle school environments. Closely aligned with the NCTM Principles and Standards for School Mathematics, the reader-friendly interactive format encourages readers to begin developing their own teaching style and making informed decisions about how to approach their future teaching career. A variety of examples establish a broad base of ideas intended to stimulate the formative development of concepts and models that can be employed in the classroom. Readers are encouraged and motivated to become teaching professionals who are lifelong learners. The text offers a wealth of technology-related information and activities, reflective thought-provoking questions, mathematical challenges, student life-based applications, TAG tricks, activities, games, sections, and group discussion prompts to stimulate each future teacher's thinking. Your Turn sections ask readers to work with middle school students directly in field experience settings. This core text for middle school mathematics methods courses is also appropriate for elementary and secondary mathematics methods courses that address teaching in the middle school grades and as an excellent in-service resource for aspiring or practicing teachers of middle school mathematics as they update their knowledge base. Topics covered in Teaching Middle School Mathematics: NCTM Principles for School Mathematics, Representation, Connections, Communication, Reasoning, and Proof, Problem Solving, Number and Operations, Measurement, Data Analysis and Probability, Algebra in the Middle School Classroom, and Geometry in the Middle School Classroom.

Miseducation David Elkind, 2010-12-08 Designed to help parents avoid the miseducation of young children, Dr. Elkind shows us the very real difference between the mind of a pre-school child and that of a school-age child.

In Search of Fatherhood- Transcending Boundaries Diane A. Sears, 2004-03-22 IN SEARCH OF FATHERHOOD: TRANSCENDING BOUNDARIES is a straight no-chaser exploration of the questions and issues directly and indirectly related to fatherhood which confront married fathers, single fathers, stay-at-home fathers, long-distance fathers, divorced fathers, custodial fathers, and non-custodial fathers throughout our global village. Men who are fathers in the millennium from all walks of life are closely examining their parental roles and responsibilities. They are redefining fatherhood through the creation of father-friendly legislation and public policies and coalitions that extend beyond geographic borders. They are staging peaceful demonstrations in the streets of the cities of the world in an effort to call attention to their need for greater access to resources and support services.
