A Critical Guide to Evidence-Informed Education Thomas Perry, Rebecca Morris, 2023-06-30

What a provocative and refreshing stance on evidence informed education. Evidence informed education may currently be a divided field, but this must-read book offers hope that a reunion of existing approaches may be possible for a productive tension where researchers, school leaders and teachers work together. The disconnect in education between research, policy and practice needs this intellectual reboot.

Professor Tanya Ovenden, Hope Provost and Professor of Education, Plymouth Marjon University, UK. As a school leader, this book is an invaluable guide to evidence informed educational research. It is a hopeful vision of a united evidence informed education field in which practitioners, policymakers and researchers all play an active role as discerning creators and users of evidence.

Sam Mason, Deputy Headteacher, Thornton Primary School, UK. This is a wonderful book that deserves to be widely read and more importantly, widely acted on. It presents a robust and detailed critique of current orthodoxies in how we have tried to improve educational practice through the use of evidence.

Researchers, practitioners, policymakers and funders with an interest in evidence and school improvement should take note.

Professor Robert Coe, Director of Research and Development at Evidence Based Education, UK and Senior Associate at the Education Endowment Foundation, UK. *A Critical Guide to Evidence Informed Education* analyses the role of research in education and its potential for improving education policy and practice.
