**Just in Time Teaching** Scott Simkins,Mark Maier,2023-07-03 Just in Time Teaching JiTT is a pedagogical approach that requires students to answer questions related to an upcoming class a few hours beforehand using an online course management system While the phrase just in time may evoke shades of slap dash work and cut corners JiTT pedagogy is just the opposite It helps students to view learning as a process that takes time introspection and persistence Students who experience JiTT come to class better prepared and report that it helps to focus and organize their out of class studying Their responses to JiTT questions make gaps in their learning visible to the teacher prior to class

enabling him or her to address learning gaps while the material is still fresh in students minds hence the label just in time JiTT questions differ from traditional homework problems in being designed not only to build cognitive skills but also to help students confront misconceptions make connections to previous knowledge and develop metacognitive thinking practices Students consequently spend more time on course concepts and ideas but also read their textbooks in ways that result in more effective and deeper learning Starting the class with students work also dramatically changes the classroom learning environment creating greater student engagement This book demonstrates that JiTT has broad appeal across the academy Part I provides a broad overview of JiTT introducing the pedagogy and exploring various dimensions of its use without regard to discipline Part II of the book demonstrates JiTT s remarkable cross disciplinary impact with examples of applications in physics biology the geosciences economics history and the humanities Just in Time Teaching article from The Hispanic Outlook in Higher Education Reprinted with permission from Hispanic Outlook in Higher Education Magazine [www.hispanicoutlook.com](http://www.hispanicoutlook.com)

*The Assessment Bridge* Pearl G. Solomon, 2002-06-14 Just the kind of bridge we need to span the ideological wars and make schools work for teachers and their students Ann Lieberman Senior Scholar Carnegie Foundation for the Advancement of Teaching Visiting Professor Stanford University In her supremely well written and useful book Dr Solomon has woven together historical perspective research and her own considerable experience to address reforming schools in the 21st Century After defining the problem productive change Dr Solomon has examined old solutions and conceptualized new ones to create better schools for students Nancy Goldman Director of Curriculum Pearl River School District Pearl River NY Standards and implementation of the learning process go hand in hand The Assessment Bridge makes us clearly aware of the present need for a bridge between the two so that standards may not create greater failure and the rejection of formal education by many children Matthew Foley Pastor Epiphany Roman Catholic Church We must ensure that tests serve the needs of education not force education to fulfill needs of test creators The Assessment Bridge is award winning educator Pearl Solomon s penetrating and cogent examination of today s high stakes standards based testing movement which seems to compromise effective teaching and learning rather than improve it Committed teachers know the importance of student assessment as a guide to classroom instruction Restoring assessment to its proper place in the curriculum is the goal of this clear headed analysis Chapters cover The origins and history of the current testing movement How good tests guide teaching and learning

How to balance standardized tests curriculum standards and critical local variables such as class size socioeconomics and teacher attitudes How to build bridges from test anxiety to improved student learning teacher training curriculum and instruction and school administration and leadership How to recruit train and nurture a new generation of talented committed and effective teachers Emphasizing the positive at all times Solomon guides us toward creation of better schools where the best teachers and school leaders link tests to standards curriculum and improved student learning
