Stashower, 2002-05-07 The world remembers Edison Ford and the Wright Brothers But what about Philo T Farnsworth the inventor of television an innovation that did as much as any other to shape the twentieth century That question lies at the heart of The Boy Genius and the Mogul Daniel Stashower s captivating chronicle of television s true inventor the battle he faced to capitalize on his breakthrough and the powerful forces that resulted in the collapse of his dreams The son of a Mormon farmer Farnsworth was born in 1906 in a single room log cabin on an isolated homestead in Utah The Farnsworth family farm had no radio no telephone and no electricity Yet motivated by the stories of scientists and inventors he read about in the science magazines of the day young Philo set his sights on becoming an inventor By his early teens Farnsworth had become an inveterate tinkerer able to repair broken farm equipment when no one else could It was inevitable that when he read an article about a new idea for the transmission of pictures by radio waves that he would want to attempt it himself One day while he was walking through a hay field Farnsworth took note of the straight parallel lines of the furrows and envisioned a system of scanning a visual image line by line and transmitting it to a remote screen He soon sketched a diagram for an early television camera tube It was 1921 and Farnsworth was only fourteen years old Farnsworth went on to college to pursue his studies of electrical engineering but was forced to quit after two years due to the death of his father Even so he soon managed to persuade a group of California investors to set him up in his own research lab where in 1927 he produced the first all electronic television image and later patented his invention While Farnsworth s invention was a landmark it was also the beginning of a struggle against an immense corporate power that would consume much of his life

That corporate power was embodied by a legendary media mogul RCA President and NBC founder David Sarnoff who claimed that his chief scientist had invented a mechanism for television prior to Farnsworth's. Thus the boy genius and the mogul were locked in a confrontation over who would control the future of television technology and the vast fortune it represented. Farnsworth was enormously outmatched by the media baron and his army of lawyers and public relations people and by the 1940s Farnsworth would be virtually forgotten as television's actual inventor while Sarnoff and his chief scientist would receive the credit. Restoring Farnsworth to his rightful place in history *The Boy Genius and the Mogul* presents a vivid portrait of a self-taught scientist whose brilliance allowed him to capture light in a bottle. A rich and dramatic story of one man's perseverance and the remarkable events leading up to the launch of television as we know it. *The Boy Genius and the Mogul* shines new light on a major turning point in American history. **Vivian Maier Developed** Ann Marks, 2023-07-04

The definitive and authorized biography that unlocks the remarkable story of Vivian Maier, the nanny who lived secretly as a world-class photographer featuring nearly 400 of her images many never seen before placed for the first time in the context of her life. Vivian Maier, the photographer nanny whose work was famously discovered in a Chicago storage locker, captured the imagination of the world with her masterful images and mysterious life. Before posthumously skyrocketing to global fame, she had so deeply buried her past that even the families she lived with knew little about her. No one could relay where she was born or raised, if she had parents or siblings, if she enjoyed personal relationships, why she took photographs, and why she didn't share them with others. Now the full story of her extraordinary life is explored by the only person who has been given access to her personal records and archive of 140,000 photographs. Based on meticulous investigative research, *Vivian Maier Developed* reveals the story of a woman who fled from a family with a hidden history of illegitimacy, bigamy, parental rejection, substance abuse, violence, and mental illness to live life on her own terms. Left with a limited ability to disclose feelings and form relationships, she expressed herself through photography, creating a secret portfolio of pictures teeming with emotion, authenticity, and humanity. With limitless resilience, she knocked down every obstacle in her way, determined to improve her lot in life and that of others by tirelessly advocating for the rights of workers, women, African Americans, and Native Americans. No one knew that behind the detached veneer was a profoundly intelligent, empathetic, and inspired woman, a woman so creatively gifted that her body of work would become one of the greatest photographic discoveries of the century.

George Lucas's Blockbusting Alex Ben Block, Lucy Autrey Wilson, 2010-03-13 A comprehensive look at 300 of the most financially and/or critically successful motion pictures of all time, many made despite seemingly insurmountable economic, cultural, and political challenges set against the prevailing production, distribution, exhibition, marketing, and technology trends of each decade in movie business history. **The Marriage between Perfume and the Lyric Stage** Mary May Robertson, 2023-09-22 But what is this scent of balmy air? What this ray of light in my tomb, I seem to see an angel amid a scent of roses, sings Florestan in *Fidelio*, Beethoven's only opera. The role of scents, smells, fragrances, and odours in opera has

long been neglected just as how much opera and its stars have influenced the world of perfumery from the nineteenth century to the present day In the first book length study on the topic Professor Mary May Robertson explores the relationship between opera perfumes and their respective protagonists in order to map out the previously undiscussed connection between the two Through compelling close readings of librettos and rigorous research through thousands of bottles of perfume the reader will come to appreciate and recognise the influences and exchanges between operas and perfumes and their ultimate marriage in the previously unrecognised genre of Operatic Perfumes which is to say perfumes named after operas composers and their divas
