Running on Empty Peter G. Peterson, 2004-08-01 When Bush came to office in 2001 the 10 year budget balance was officially projected to be at a surplus of 5 6 trillion But after three big tax cuts the bursting of the stock market bubble and the devastating effects of 9 11 on the economy the surplus has evaporated and the deficit is expected to grow to 5 trillion over the next decade The domestic deficit is only the half of it Given our 500 billion trade deficit and our anemic savings rate we depend on an unprecedented 2 billion of foreign capital every working day If foreign confidence were to wane this could lead

to the dreaded hard landing Peter G Peterson a lifelong Republican chairman of the Blackstone Group and former secretary of commerce under Nixon shatters the myths with hard facts and a harrowing view of the twin deficit s real impact Republicans and Democrats alike have mortgaged America s future through reckless tax cuts out of control spending and Enron style accounting in Congress And the situation will only get worse as the Baby Boom generation begins to retire making unprecedented demands on entitlement programs like Social Security and Medicare Despite what Bush says we are on a path that could end in economic meltdown and we simply cannot grow out of the deficit In *Running On Empty* Peterson sounds the warning bell and prescribes a set of detailed solutions which if implemented early will prevent the need for draconian measures later He takes us behind the politicians smoke and mirror games and forcefully explains what we must do to rescue the future of our country
