governance of the multiethnic empire and places the institutional and intellectual history of Russia in the context of other Western and Central European developments Raeff's essays offer a sketch of the generation that came of age in the era of the Napoleonic Wars and the ensuing attempts at constitutional reform the generation that laid the foundations of the modern Russian national consciousness He explores modernization reform and liberalism in the second half of the nineteenth century the acquisition and incorporation of Russia's multiethnic population and the politics and administration of the reigns of Peter III and Catherine II He examines how the Russian elites assimilated values from the Western and Central European Enlightenment and assesses the important intellectual and ideological effects the Enlightenment had on the nation The volume concludes with a comparative look at the process of Westernization focusing on issues of literacy state leadership and the role of the intelligentsia Many of these seminal essays are long out of print and hard to find This timely volume makes Marc Raeff's insights readily available as Russia reemerges as a nation state facing new challenges that are often deeply rooted in its past

Boris Chicherin and Early Russian Liberalism, 1828-1866, 1992-12 This is the first volume of a two volume intellectual and political biography of Boris Chicherin 1828-1904 the most important liberal thinker in nineteenth century Russia The author analyzes Chicherin's gradual emergence as a reformist during the reign of Nicholas I his activities as a prominent spokesman for liberal reform and his defense of conservative liberalism before his disillusionment in the mid 1860's with both Russian government and society Chicherin's early liberalism distinguished civil rights such as freedom of conscience and of speech from political rights such as constitutional guarantees of suffrage and representative government He contended that only a strong centralized state could simultaneously keep order and promulgate sweeping civil reforms for when nations lacking democratic experience embark on extensive reforms the absence of a powerful state apparatus may lead to uncontrolled revolutionary ferment The book is not a conventional biography of Chicherin but a portrait of the cultural context in which he and other early Russian liberals operated It deals with broad issues in Russian intellectual and political history the development of liberalism out of the Westernism of the 1840's the differentiation of early Russian liberalism from Russian socialism the connections between educated liberal society and the enlightened bureaucrats the woman question the Polish problem and the abolition of serfdom and finally liberalism's prospects in reformed Russia
