Assembly instructions

ref: stationary side

Version 2004

This crib has been designed for your child's comfort and your convenience. Quality material and workmanship have gone into this crib which will provide a sound and comfortable bed for your baby if properly assembled and maintained. For the security of your child and your own peace of mind be sure to follow the assembly instructions exactly. A periodic check should be made of all bolts and screws, which should be tightened if needed. Moisture and heat are harmful to the finish; for this reason use extreme caution when a vaporizer is in use. The vapor steam should always be aimed away from the crib as well as away from any other wood furniture. Some types of soft plastic toys could damage the finish when placed against it.
