dissuade me With so few gyronauts scattered across the UK in the pre Internet 1990s it felt like trying to join a secret society The only available machines were single seat and the only way to learn to fly was to own one No one said this was going to be easy My quest led me to Cornwall where a small group of autorotational veterans took me under their collective wing Thanks to them Delta J was born and they taught me how to stay alive working from the ground up Twenty years later my rotary winged obsession took this hesitant mouse across the English Channel where I discovered the unimaginable freedom of the French ultralight world My tiny rotorcraft and I are now part of that world It has been a voyage of discovery and new horizons with ups and downs in every sense a journey I could never have imagined when I took that first aeroplane flight in 1985 Gyroplanes have been my greatest adventure *Advisory circular* United States.
