Silva, 2023-11-16 This book examines today's

massive migrations between Global South and Global North in light of Spain and Portugal's complicated colonial legacies. It offers unique material on Spanish speaking and Lusophone Africa in conjunction to transatlantic and transpacific perspectives encompassing the Americas, Asia, and the Caribbean. For the first time, these are brought together to explore how movement within and beyond these former metropolises came to define the Iberian Peninsula. The collection is composed of papers that study human mobility in Spanish speaking or Lusophone contexts from a myriad of approaches. The project thus sheds critical light on migratory movement within the Luso-Hispanic world and also beyond its traditional geo-linguistic parameters through an eclectic and interdisciplinary collection of essays traversing anthropology, literary studies, theater, and popular culture. Beyond focusing solely on the geo-political limits of Peninsular space, several essays interrogate the legacies of Iberian colonial projects in a global perspective and how the discursive underpinnings of these impact the politics of migration in the broader Luso-Hispanic world.

**Volatile Whiteness** Martin Repinecz, 2025-01-31 The decades spanning from the 1960s to the 1980s in Spain were marked by a series of significant changes: a flourishing economy fuelled by tourism, widespread migration from rural areas to cities, the dissolution of the African empire, evolving gender and sexual norms, and a political transition from dictatorship to democracy. *Volatile Whiteness* argues that throughout this period, popular film genres such as comedies, crime thrillers, musicals, and religious cinema aimed to erode the racialized image of Spain as an Africa of Europe and establish the nation's belonging in global whiteness. The book explores how popular films shaped the attitudes of Spanish audiences towards racialized groups even before the onset of mass immigration in the 1990s and traces the construction of the Roma community as an internal threat to the nation's upward mobility during late Francoism and the subsequent Transition. The book examines films that have retained popularity among contemporary Spanish audiences due to their continued circulation on television and other platforms. In doing so, *Volatile Whiteness* reflects not only on the meanings that popular films of the past may have had for their original audiences but also on the ways they may shape the lived experiences of racial minorities in Spain today.

*Rite, Flesh, and Stone* Antonio Córdoba, Daniel García-Donoso, 2021-10-15 Forensic science provides information and data behind the circumstances of a particular death, but it is culture that provides death with meaning. With this in mind, *Rite, Flesh, and Stone* proposes cultural matters of death as its structuring principle, operating as frames of the expression of mortality within a distinct set of coordinates. The chapters offer original approaches to how human remains are handled in the embodied rituals and social performances of contemporary funeral rites of all kinds; furthermore, they explore how dying, flesh, and corpses are processed by means of biopolitical technologies and the ethics of self-care, and how the vibrant and breathing materiality of the living is transformed into stone and analogous kinds of tangible empirical presence that engender new cartographies of memory. Each, coming from a specific disciplinary perspective, authors in this volume problematize conventional ideas about the place of death in contemporary Western societies and cultures, using Spain as a case study. Materials analyzed here range from cinematic

and literary fictions to historical archives and anthropological and ethnographic sources make explicit a dynamic scenario where actors embody a variety of positions toward death and dying the political production of mortality and the commemoration of the dead Ultimately the goal of this volume is to chart the complex network in which the disenchantment of death and its reenchantment coexist and biopolitical control over secularized bodies overlaps with new avatars of the religious and non theistic desires for memorialization and transcendence
