the Foreword by Carol Aschenbrener Sport Officiating Lori Livingston, Susan L. Forbes, Nick Wattie, Ian Cunningham, 2020-04-14 Sport officials are tasked with maintaining order and adjudicating sport contests. Given their multifaceted role in enforcing rules, standardizing competitions, and keeping sport safe for all participants, they are a requisite part of the sport workforce. With ongoing reports of annual attrition rates in officiating in excess of 20-35% for various sports around the world, there is more than ample evidence that officiating dropout is a persistent, pervasive, and global challenge underpinned by multiple contributing factors, including but not limited to the threat of verbal and physical abuse. Moreover, despite worldwide recognition and growing interest in the problem, there has not been a comprehensive resource for sport scientists and practitioners studying or working to reverse the ongoing trend. *Sport Officiating: Recruitment, Development, and Retention* provides a state-of-the-science summary in the emerging area of inquiry, limited to sport officiating recruitment, development, and retention, and provides insight and evidence-based approaches to the development of successful officiating development programs. ODP. This book is a primary reference work using a multifaceted, holistic, and evidence-based approach to integrate key findings from the sport science literature to date in suggesting and providing real-world solutions to the practical issues faced by sport organizers. *Sport Officiating: Recruitment, Development, and Retention* is a key resource for researchers interested in the development of sport officials and for sport practitioners aiming to implement officiating development programs. ODP at any level within sport systems.

The Oceans Atlas DK, 2023-09-12 An illustrated guide to the geography, geology, and life in the world's oceans. Take a dive into the world's oceans to discover their physical features and wildlife and threats to their future. How do waves form? Where is the deepest part of the ocean? What is a black smoker? What would the ocean floor look like without water? What lives in a coral reef? All these questions and more are answered in *The Oceans Atlas*, an illustrated guide to Earth's oceans. Explore key features of the oceans from sea floor to surf, including tides and trenches, currents, and coastline volcanoes and vents. Discover the variety of marine life from the biggest sharks and whales to the tiniest invertebrates and polyps. Find out the human impact on our seas and how we can create a healthier and cleaner future. Luciano Corbella's hand-drawn illustrations allow you to see parts of the planet that can't be shown in photographs, with diagrams clearly annotated to help explain what's going on.

The role of evidence in developing effective educational inclusion Joseph Mintz, Brahm

Norwich, 2023-12-13 There has been considerable interest internationally in how research can be effectively translated to have an impact on practice in schools The application of evidence informed approaches in the field of education is contested and debated Such debates are intensified in relation to the issue of how best to include children with diverse learning needs in the classroom The role of knowledge science and evidence in how we both conceptualize and best support children with special educational needs and other forms of diversity in the classroom remains an open question in terms of both policy and practice Although there is a considerable and growing body of literature on evidence informed practice in education in general there has been less attention paid to its implications for the domain of educational inclusion specifically However tensions between differing conceptualisations of difference and the role of categorisation present questions as yet not fully answered as to the ways in which evidence can and should articulate with practice in this specific domain For example issues of what is inclusion the place of norms and values that define inclusion how we conceptualize and think about difference across culture language and cognition are raised when we think about the application of evidence to practice in the area of educational inclusion
