A person wearing a wide-brimmed hat is seen from the back, sitting in a dimly lit room. They are watching a television that displays a blue, abstract, wavy pattern. The room is dark, with some light reflecting off the person's hat and the TV screen. The overall mood is somber and contemplative.

Selective Incapacitation and Public Policy Kathleen Auerhahn, 2012-02-01 From the 1970s to the new millennium the prison population in the United States has quadrupled while an unprecedented amount of sentencing reform has taken place largely intended to protect the public from dangerous criminals This book details the California experience including the history and politics of criminal sentencing policy reform as well as the consequences of this activity to the criminal justice system Using cutting edge computer simulation modeling Kathleen Auerhahn explores the impact that sentencing reforms dating back to the 1970s have had on the composition and structure of the criminal justice system with specific focus on prison populations She illustrates how dynamic systems simulation modeling is used to both examine possible futures under a variety of sentencing structures and sentencing policy alternatives including narrowing strike zones and the early release of elderly offenders in order to more effectively target the dangerous criminals these policies promise to remove from society via incarceration

Penal Censure Antje du Bois-Pedain, Anthony E Bottoms, 2019-04-04 This exploration of penal censure is inspired by the 40th anniversary of the publication of Andreas von Hirsch s *Doing Justice* which opened up a fresh set of issues in theorisation about punishment that eventually led von Hirsch to ground his proposed model of desert based sentencing on the notion of penal censure Von Hirsch s work thus provides an obvious starting point for an exploration of the importance of censure for the justification of punishment both within his theory of just deserts and from the perspectives of other theoretical approaches It also provides an opportunity for engaging with censure more broadly from philosophical sociological anthropological and individual psychological perspectives The essays in this collection map the conceptual territory of censure from these different perspectives address issues for desert theory that arise from fuller understandings

of censure and consider afresh the role of censure within the jurisprudence of punishment They show that analyses of censure from different vantage points can significantly enrich punishment theory not least by providing a conceptual basis for perceiving common ground between and thus connecting different strands of penal theory George Fletcher's Essays on Criminal Law George P. Fletcher, 2013-01-10 This volume collects for the first time a selection of criminal law scholar George Fletcher's most famous previously published shorter works as well as some that are less known but equally important Each of the twelve essays by Fletcher is paired with one or more new critical commentaries on that essay These critical commentaries trace the impact of the respective essay in the development of the criminal law and assess its future significance **The Century Dictionary and Cyclopedia: Dictionary** William Dwight Whitney, Benjamin Eli Smith, 1899
