Department of Energy,1990 **Urban Transportation Research and Planning, Current Literature** ,1961 **Who Killed Higher Education?** Edna Chun,Joe Feagin,2021-08-23 Who Killed Higher Education Maintaining White Dominance in a Desegregating Era offers a probing and unvarnished look at the causes of the substantial state defunding of public higher education over the last six decades With the pandemic and cuts to social services these challenges have only deepened especially creating real dilemmas for first generation minoritized students seeking to complete a college education Through extensive analysis of trends in public higher education funding the book documents and lays bare the ways in which elite neoliberal decision makers launched a multi pronged and attack on public higher education It highlights the confluence of the enrollment of an increasingly diverse cohort of students in college with the efforts of conservative white legislatures to diminish funding support for public higher education Who Killed Higher Education is an important resource for students in courses on higher education and diversity in education It will also provide instruction for boards of trustees institutional leaders faculty and key campus constituencies in developing long term strategies that ensure the access and success of a diverse and talented student body **US Black Engineer & IT** ,2009

US Black Engineer & IT ,1991 Strategic Transformation of Higher Education Stewart E. Sutin,W. James Jacob,2016-09-23 Strategic Transformation of Higher Education examines the broken revenue driven business model characteristic of higher education in an environment that demands greater access more affordable tuition accountable leaders and faculty who deliver a consistently high quality of relevant education The authors demonstrate that enduring business models must support institutional academic missions and that they are integral to systemic and strategic transformation by diagnosing the case for change and offering a practitioners guide for reform This book surveys deficient government education policies practices and funding formulas of select countries and offers remedies It identifies impediments to change along with ways to develop and deliver evidence based solutions to improve institutional effectiveness and operating efficiencies and it cites exemplars of change in these areas Special attention is given to leadership attributes requisite of driving institutional redesign and to a paradigm shift that calls for transition from knowledge creation to plan implementation Strategic Transformation of Higher Education emphasizes a collective need for reflection a will to consistently question prevailing assumptions and the courage to afford practical application to innovation

Engineering the System of Healthcare Delivery Denis A. Cortese,2010-05-15 As the United States continues to debate reform of its healthcare system this book argues that providing health insurance for all without improving the delivery system will not improve the current problems of access affordability and quality The US healthcare system has many excellent components strong scientific input extraordinary technology for diagnosis and treatment dedicated staff and top

class facilities among them But the system has evolved haphazardly over time and although it has not failed entirely the authors argue that like any system where attention is paid to individual components at the expense of the system as a whole it can never hope to succeed Above all they point out that the US system does not provide high value healthcare it has the highest costs in the world and yet many other countries have lower infant mortality rates and better life expectancy Together with a team of highly regarded thought leaders the authors of this publication advocate a complete re thinking of healthcare from a systems perspective an engineering approach to healthcare and they then describe how to set about it Covering a wide range of subjects including health care costs and economics barriers to change integrated health systems electronic records and computer based patient support as well as patient safety and palliative and chronic care this book will be of interest to all those involved in healthcare provision whose goal is affordable care to promote healthy high quality lives
