

# Star™

## Thermoplastic Regenerative D.E. Filter

By Pentair Pool Products®

## Greatest water clarity with least possible attention

Diatomaceous earth (D.E.) removes particles that are so small they are individually undetected by the human eye, but combine to decrease water clarity. Star™ D.E. filters remove these microscopic contaminants so your water achieves the glass-like clarity only D.E. can deliver.

Plus, Star filters help maintain themselves. An exclusive "pre-cleaning" feature enables the filter to dislodge trapped dirt and D.E. particles from the filter. A few turns of a knob is all it takes to "regenerate" the media inside the filter so it is able to provide extended service before periodic cleaning is required.

### Other key features include:

- Refined hydraulic design minimizes flow restrictions so the least amount of pumping power produces the optimum flow rates—for lower utility costs.

- All system components manufactured from the most durable and maintenance-free engineered materials for years of service.
- Time-proven vertical media grids with 2-inch spacing provide the most efficient use of D.E. per cycle—trapping more dirt for cleaner water and longer cycle times between cleanings.
- Exclusive, notatable grid assembly lifts out easily for any required service.
