The **Politically Incorrect Guide**™ to the Middle East

*You think you know about the
Middle East. But did you know:*

- The Arab-Jewish conflict predates the creation of Israel
- Islamic fundamentalism isn't ancient—which is why it's so dangerous
- Democracy is not America's friend in the Middle East
- Iran can't be reformed—but the Saudis can
- Bush Sr.—not Bush Jr.—should have invaded Iraq
- Why an Israeli-Palestinian peace is not only impossible, but undesirable

Politically Incorrect Guide To The Middle East:

Politically Incorrect Guide to the Middle East Martin Sieff, 2008-01-28 The Middle East is almost never off the front pages yet most Americans know little about the region Why The mainstream media and Ivy League academics instead of helping only make matters worse by casting everything in the usual politically correct mold Arab terrorists are just desperate freedom fighters and the region s one free democracy Israel is the oppressor not least because of its alliance with America And if Islamic extremism is a problem the establishment tells us it s only because it s rooted in that source of all evils religion A different strain of political correctness has seeped into some minds on the right most notably the Bush administration which so ready to buy into the egalitarian myths we are all taught believed that Western style democracy could flourish anywhere Now in *The Politically Incorrect Guide to the Middle East* veteran Middle East correspondent Martin Sieff puts the lie to all these myths and clich s giving you everything you need to know about the region to understand its past its present and its possible future *Politically Incorrect Guide to Global Warming and Environmentalism* Christopher C.

Horner, 2007-02-12 In *The Politically Incorrect Guide to Global Warming and Environmentalism* Christopher C Horner tears the cover off the Left s manipulation of environmental issues for political purposes and lays out incontrovertible evidence for the fact that catastrophic man made global warming is just more Chicken Little hysteria not actual science He explains why although Al Gore and his cronies among the media elites and UN globalists endlessly bleat that global warming is an unprecedented global crisis they really think of it as a dream come true It s the ideal scare campaign for those who hate capitalism and love big government *The Politically Incorrect Guide to Islam (And the Crusades)* Robert

Spencer, 2005-07-01 Presents a critical analysis of the differences between Christianity and Islam and maintains that Islam contains a political agenda which endorses violence and aggression against non Muslims **The Politically Incorrect**

Guide to the British Empire H. W. Crocker, III, 2011-10-24 Presents an irreverent and humorous look at the four hundred year history of the British empire *East Asia's Strategic Advantage in the Middle East* Shirzad Azad, 2021-05-07 The modern trajectory of Middle Eastern East Asian interactions has garnered very little scholarly attention and scrutiny The two way connection between both regions have witnessed a litany of activities and developments over the past several decades but such dynamics are yet to be investigated sufficiently in tandem with their overall impacts on the world s safety and well being Aiming to fill part of this acute research gap *East Asia s Strategic Advantage in the Middle East* concentrates primarily on different aspects of East Asia s modern relationship with the Middle East by turning the spotlight on strategic advantages of East Asian countries in critical areas in the region Over the past several years there have been a slew of talks and debates about the formation of strategic ties between the East Asian states and their counterparts across the Middle East region However East Asia s advantage of strategic nature has been there for decades shaping the contours of an increasingly multifaceted chain of interactions involving the two sides The more other stakeholders Western powers in particular made

serious attempts to secure their precious assets in the Middle East the larger East Asia's strategic advantage in the region grew

Politically Incorrect Guide to Immigration John Zmirak, Al Perrotta, 2018-05-21 America's immigration crisis is out of control Unregulated immigration has led to an increase in crime a loss of working class jobs an inflated welfare state and an elevated amount of terror threats on our home territory The clash of differing emotions facts and opinions reveal that this issue is not simply a nationwide disagreement it is an American crisis In *The Politically Incorrect Guide to Immigration* authors John Zmirak and Al Perrotta debunk the Left's most deceptive myths on this complex policy issue and reveal the huge implications that lie ahead for our nation's future Zmirak and Perrotta set the record straight on the history of American immigration uncover the principles with which our forefathers migrated to America affirm the respect with which migrants should treat our country if they wish to live here and assert real solutions to the immigration crisis America faces *The Politically Incorrect Guide to Immigration* equips readers with real life statistics and information and is packed with targeted arguments to help convince even the staunchest advocates for open borders that America needs to build The Wall You may think you know all about immigration but in *The Politically Incorrect Guide to Immigration* you'll learn Building The Wall would cost less than half of what we spend to educate illegal immigrants every year Illegal immigration costs American taxpayers 116 billion a year 62% of naturalized immigrants are for the Democrats only 25% are for the Republicans Competition from immigrants costs American worker 450 billion a year The Founders wanted to admit only immigrants who would make a net contribution and assimilate Millions of nineteenth century immigrants who couldn't make it in America went back home The percent of foreign born in the United States today is the highest since World War I and this time we're not doing Americanization After Reagan's 1986 Amnesty the illegal population went from 3.2 million to 11 million Over 700 000 foreign visitors to the United States in 2016 overstayed their visas Eighty percent of Central American women and girls who enter the United States illegally are raped along the way Non citizens are only 9 percent of our population but 27 percent of federal prisoners One hundred forty seven million more people from around the world would like to move to the United States

Biblical Eschatology: Dr. Justin G. Prock, 2021-06-20 In recent history men from a variety of backgrounds have come to the same conclusion that the Bible is about Israel only For example In 1861 John Mason Neale translated an ancient twelfth century Latin hymn and its title was O Come O Come Emmanuel Ever since 1861 Christians have sung that hymn at Christmas time especially at Advent Do you know what the words really mean that you are singing In 1878 Edward Hine wrote an article titled *Seven Eighths of the Bible Misunderstood* wherein he explains that seven eighths of the Bible is about national

salvation i e the national salvation of True Israel whereas only one eighth of the Bible is about personal salvation Did you know that In the 1960 s Pastor Sheldon Emry wrote an article title An Open Letter to Any Minister Who Teaches the Jews Are Israel wherein he is of the opinion that the Israel that exists today since 1948 is not the True Israel of the Bible In 1998 Arnold E Kennedy wrote a book titled The Exclusiveness of Israel wherein he legally proves using the King James Version of the Bible that the Bible in general is only about True Israel So here we are in the Twenty First Century and the Gospel that is preached today is totally convoluted from that which was preached in the First Century A D by Yahshuah and His disciples i e the Gospel of the Kingdom So where did the so called churches and pastors go wrong By the way is there really a hierarchy in the Bible In order to find out what the truth really is we have to look at the original languages in which the Bible was written and then translated For example the Old Testament was written in Hebrew and Aramaic then translated into Greek The New Testament was written in Hebrew and Greek Both Testaments were put together and translated into Latin then German and finally into English from which the entire world received their own translation of the Bible So what was the original meaning of the words used in the original languages i e the etymology of the words Once that is determined then we can go onto the next phase and discuss types in the Bible From there what is the Law of First Mention How should Bible prophecy be Interpreted Who are the keys to Bible prophecy Where are we in the Bible prophecy timeline During these discussions we will find out who Yahweh chose of all the families of the earth to make His own The churches teach universalism The question then becomes Who was Yahweh s Law given to What are the Laws of Yahweh And then the even bigger question becomes Who was Yahshuah sent to All of these questions and more will be answered as you read this book

Politically Incorrect Guide to Real American Heroes Brion McClanahan,2012-11-12 As presidential candidates sling dirt at each other America desperately needs a few real heroes Tragically liberal historians and educators have virtually erased traditional American heroes from history According to the Left the Founding Fathers were not noble architects of America but selfish demagogues And self made entrepreneurs like Rockefeller were robber barons and corporate polluters Instead of honoring great men from America s past kids today now idolize rock stars pro athletes and Hollywood celebrities In his new book *The Politically Incorrect Guide to Real American Heroes* author Brion McClanahan rescues the legendary deeds of the greatest Americans and shows why we ought to venerate heroes like Captain John Smith adventurer Daniel Boone General Robert E Lee and many more *The Politically Incorrect Guide to Real American Heroes* not only resuscitates America s forgotten heroes but sheds light on the Left s most cherished figures including Franklin Delano Roosevelt and the Kennedys With biting wit and devastating detail McClanahan strikes back against the multicultural narrative peddled by liberal historians who make heroes out of pop culture icons and corrupt politicians In America s hour of peril McClanahan s book is a timely and entertaining call to remember the heritage of this great nation and the heroes who built it *Politically Incorrect Guide to the Presidents* Steven F. Hayward,2012-02-13 Larry Schweikart a retired history professor is ready to set

the record straight on the American presidents He goes through each of the first 26 presidents from Washington to Taft and debunks myths lies and fake news made fact by the uninformed Discover why George Washington favored American isolationism James Madison supported states rights what Lincoln promised to Southerners about fugitive slaves and why nineteenth century presidents were the last to understand the true role of government So what made these presidents so much better than the ones America has now Schweikart argues that recent commanders in chief have welcomed crises to advance their own partisan agenda defied the separation of powers the Founders carefully constructed to preserve the Republic and given us every reason to doubt they take the country s interests to heart *We Visit Iraq* Claire

O'Neal,2011-09-15 Welcome to Iraq the birthplace of history Iraq s Tigris and Euphrates rivers turned this Middle Eastern desert into the world s first farmland Over six millenia Iraq s civilizations have laid foundations for the rest of the world They built great stone ziggurats and soaring mosques They invented the wheel the calendar and the written word With their riches they also attracted war Conqueror after conqueror the bloodthirsty Assyrians Alexander the Great the Mongols the British and more sought to claim Mesopotamia for their own Today Iraq s enormous oil deposits the cheapest to produce in the world interest outside powers most From the Taurus and Zagros mountains in the north to marshy Basra in the south Iraqis have suffered under oppressive rulers and dictators for a thousand lifetimes Today they cry out for a chance at freedom and democracy The country s lasting legacy in stone and thought hints that the determined Iraqi people will find their path to greatness once more Icon of Evil David Dalin,2017-07-12 A chilling fascinating and nearly forgotten historical figure is

resurrected in this riveting work that links the fascism of the last century with the terrorism of our own Written with vigor and extraordinary access to primary sources in several languages Icon of Evil is the definitive account of the man who during World War II was called the fuhrer of the Arab world and whose ugly legacy lives on today With new and disturbing details David G Dalin and John F Rothmann show how al Hussein ingratiated himself with his hero Adolf Hitler becoming with his blond hair and blue eyes an honorary Aryan while dreaming of being installed as Nazi leader of the Middle East Al Hussein would later recruit more than 100 000 Muslims in Europe to fight in divisions of the Waffen SS and obstruct negotiations with the Allies that might have allowed four thousand Jewish children to escape to Palestine Some believe that al Hussein even inspired Hitler to implement the Final Solution At war s end al Hussein escaped indictment at Nuremberg and was harbored in France Icon of Evil chronicles al Hussein s postwar relationships with such influential Islamic figures as the radical theoretician Sayyid Qutb and Saddam Hussein s powerful uncle General Khairallah Talfah and his crucial mentoring of the young Yasser Ararat Finally it provides compelling evidence that al Hussein s actions and writings serve as inspirations today to the leaders of Hamas Hezbollah and other terrorist organizations pledged to destroy Israel and the United States **Promises of Betrayals** Fazle Chowdhury,2018-11-26 Promises of Betrayals demonstrates the revealing

history but complex and profound caution in the re examination of Iran as it has remained shrouded in a murky cloud to those

refutes these misrepresentations showing that Israel's actions are well within the norms of international law and morality and arguing that the country far from being a deviant state is a bastion of Western values. The author offers a nuanced narrative outlining the legal, moral, and historical justice behind Jewish statehood and discussing the reasons behind the failed peace process in recent years.

That Should Still Be Us Martin Sieff, 2012-03-08. Chronicles the damage Thomas Friedman's flat earth ideas have caused to the American economy. As Martin Sieff convincingly argues, Thomas Friedman's prescriptions have played a major role in causing America's economic decline, yet many executives and politicians, including President Obama, still look to him as their guru. Sieff exposes Friedman's fallacies on the nature of globalization, the information technology revolution, political paralysis in Washington, and energy consumption. He documents how China is investing far more in locking up the world's oil and gas reserves than in developing the ineffective green technologies Friedman claims they love. He exposes Friedman's most acclaimed ideas as retreads of naïve fantasies widely believed and exposed as useless a century ago. Convincingly refutes Thomas Friedman's fantasies and many fallacies in his best-selling books *The World Is Flat* and *That Used to Be Us* and presents a radically different vision and road map for America's economy and its future. Offers a practical trade and energy strategy to restore American prosperity and industrial strength in the twenty-first century. Explains why America's economy will soon depend on producing low-carbon footprint natural gas, reviving its manufacturing sector, and protecting its industry from unfair foreign competition and artificially manipulated exchange rates. Written by veteran journalist Martin Sieff, a regular contributor to FoxNews.com and Chief Global Analyst at The Globalist Research Center.

A Brief History of the Middle East Christopher Catherwood, 2011-02-24. Western civilization began in the Middle East. Judaism and Christianity, as well as Islam, were born there. For over a millennium, the Islamic empires were ahead of the West in learning, technology, and medicine and were militarily far more powerful. It took another three hundred centuries for the West to catch up and overtake the Middle East. Why does it seem different now? Why does Osama bin Laden see 1918 with the fall of the Ottoman Empire as the year everything changed? These issues are explained in historical detail here in a way that deliberately seeks to go behind the rhetoric to the roots of present conflicts. *A Brief History of the Middle East* is essential reading for an intelligent reader wanting to understand what one of the world's key regions is all about. Fully updated with a new section on the Iraq Invasion of 2003, the question of Iran, and the full context of the Israeli-Palestine conflict.
