## Pediatric HESI Practice Questions

The nurse is preparing a child with an intussusception for a prescribed barium enema. What is the main purpose of conducting this procedure prior to surgical intervention?

- A. Evacuate the bowel of impacted feces.
- B. Reduce the invaginated bowel segment.
- C. Locate the presence of diverticula.
- D. Identify the area of esophageal atresia. - answer ☐ ANS: B

Intussusception, an invagination or telescoping of one portion of the intestine into another, causes intestinal obstruction in children (usually occurs between 3 months and 5 years of age). Nonsurgical treatment is attempted with hydrostatic pressure created by barium instillation, which often reduces the area of bowel intussusception (B), thereby negating the need for surgical intervention. A barium enema is likely to cause (A). A barium enema could be used to detect (C), but this is not the reason for its use with intussusception. (D) is not a use for a barium enema.

The nurse is teaching an adolescent girl with scoliosis about a Milwaukee brace that her health care provider has prescribed. Which instruction should the nurse provide to this client?

- A. Remove the brace 1 hour each day for bathing only.
- B. Remove the brace only for back range-of-motion exercises.
- C. Wear the brace against the bare skin to ensure a good fit.
- D. Wearing the brace will cure the spinal curvature. - answer ☐ ANS: A

The Milwaukee brace is designed to slow the progression in spinal curvature while the adolescent is growing. The brace should be worn 23 hours a day and removed a total of 1 hour a day for hygiene (A). There are no specific exercises for increasing the range of motion in the back that should be performed (B). A T shirt should be worn next to the body and the brace put on over the T shirt to protect the skin (C). The brace will not cure the spinal curvature (D) but should slow the progression of the scoliosis.

The nurse should teach the parents of a child with a cyanotic heart defect to perform which action when a hypercyanotic spell occurs?
