

The Politically Incorrect Guide™ to the **CIVIL WAR**

A part of the bestselling P.I.G. series

You think you know about the Civil War, but did you know:

- ✦ That secession was legal?
- ✦ That the Emancipation Proclamation did not free a single slave
- ✦ That the South had the moral high ground in the war (and the editorial support of the Vatican's own newspaper)
- ✦ That Robert E. Lee and Jefferson Davis thought slavery would fade away naturally
- ✦ That if the South had won, we might be able to enjoy holidays in the sunny Southern state of Cuba?

Woods, 2004-01-04 The problem in America isn't so much what people don't know the problem is what people think they know that just ain't so Thomas E Woods Most Americans trust that their history professors and high school teachers will give students honest and accurate information *The Politically Incorrect Guide to American History* makes it quite clear that liberal professors have misinformed our children for generations Professor Thomas E Woods Jr takes on the most controversial

moments of American history and exposes how history books are merely a series of clichés drafted by academics who are heavily biased against God, democracy, patriotism, capitalism, and most American family values. Woods reveals the truth behind many of today's prominent myths. MYTH: The First Amendment prohibits school prayer. MYTH: The New Deal created great prosperity. MYTH: What the Supreme Court says goes. SEAN HANNITY This book arms every citizen with a comprehensive dossier on just how science, economics, and politics have been distorted and corrupted in the name of saving the planet. MARK LEVIN Less freedom. More regulation. Higher costs. Make no mistake, those are the surefire consequences of the modern global warming campaign waged by political and cultural elites who have long ago abandoned fact-based science for dramatic fearmongering in order to push increased central planning. *The Politically Incorrect Guide to Climate Change* gives a voice backed by statistics, real-life stories, and incontrovertible evidence to the millions of deplorable Americans skeptical about the multibillion-dollar climate change complex whose claims have time and time again been proven wrong. *The Politically Incorrect Guide to Darwinism And Intelligent Design* Jonathan Wells, 2006-08-01 A non-technical analysis of the controversial culture war over Darwin versus intelligent design states that there is no irrefutable evidence supporting Darwinism; argues that Darwin-based theories that are taught in school are not fact-based and reveals how scientists at major universities believe in intelligent design. Original. *Politically Incorrect Guide to the Constitution* Kevin Gutzman, 2007-06-11 The Constitution of the United States created a representative republic marked by federalism and the separation of powers. Yet numerous federal judges led by the Supreme Court have used the Constitution as a blank check to substitute their own views on hot-button issues such as abortion, capital punishment, and same-sex marriage for perfectly constitutional laws enacted by We the People through our elected representatives. Now *The Politically Incorrect Guide to the Constitution* shows that there is very little relationship between the Constitution as ratified by the thirteen original states more than two centuries ago and the constitutional law imposed upon us since then. Instead of the system of state-level decision makers and elected officials, the Constitution was intended to create judges who have given us a highly centralized system in which bureaucrats and appointed, not elected, officials make most of the important policies. In *The Politically Incorrect Guide to the Constitution*, Professor Kevin Gutzman explains how the Constitution was understood by the founders who wrote it and the people who ratified it. Follows the Supreme Court as it uses the fig leaf of the Constitution to cover its naked usurpation of the rights and powers the Constitution explicitly reserves to the states and to the people. Slid from the Constitution's republican federal government with its very limited powers to an un-republican judgeocracy with limitless powers. How the Fourteenth Amendment has been twisted to use the Bill of Rights as a check on state power instead of on federal power as originally intended. The radical

inconsistency between constitutional law and the rule of law. It contends that the judges who receive the most attention in history books are celebrated for acting against the Constitution rather than for it. As Professor Gutzman shows, constitutional law is supposed to apply the Constitution's plain meaning to prevent judges, presidents, and congresses from overstepping their authority. If we want to return to the founding fathers' vision of the Republic, if we want the Constitution enforced in the way it was explained to the people at the time of its ratification, then we have to overcome the received wisdom about what constitutional law is. The Politically Incorrect Guide to the Constitution is an important step in that direction. Politically Incorrect Guide to Western Civilization Anthony Esolen, 2008-05-27. Everything you should know but PC professors won't teach about Western heritage. Western civilization is the envy of the globe. It has given to the world universally accepted understandings of human rights rooted in Judeo-Christian principles, created standards for art, music, and literature that have never been equaled, and originated political and social systems that have spread all across the planet. Political correctness now obscures these and other truths about Western civilization. Leftists and Islamic jihadists find common cause in assailing Western colonialism, imperialism, and racism as its defining characteristics. Guilt-ridden Western leaders and public figures speak of their cultural patrimony in disparaging terms they would never dare to use about a non-Western culture. And in universities, multicultural-minded professors flatter students into believing they have nothing really to learn from Sophocles or Shakespeare. But now Professor Anthony Esolen, one of the team teachers of Providence College's esteemed Development of Western Civilization Core Curriculum, has risen to the West's defense. The Politically Incorrect Guide to Western Civilization takes on the prevailing liberal assumptions that make Western civilization the universal whipping boy for today's global problems and introduces you to the significant events, individuals, nations, ideas, and artistic achievements that make Western civilization the greatest the world has ever known. Today, defending the West has become an urgent imperative if we don't value what we have and what we have inherited; we will surely lose it. The Politically Incorrect Guide to Western Civilization is an essential sourcebook for that defense. **Politically Incorrect Guide to Jihad** William Kilpatrick, 2016-09-26. A book to challenge the status quo, spark a debate, and get people talking about the issues and questions we face as a country. The Politically Incorrect Guide to the Civil War H. W. Crocker, 2008-09-30. Suggests that the Confederate States of America had a strong constitutional case and that modern ideas of this region and time period rely heavily on stereotypes and misinformation. **The Vulgarization of Christ's Church** Ronnie W. Rogers, 2017-04-14. This book seeks to clarify and demonstrate the incalculable and injurious influence that progressive education has had and is having upon preaching, thinking, Christianity, and the local church. Progressive education began at the turn of the twentieth century, replacing classical education with what is purportedly a science-based education which necessarily results in scientism. This seismic shift in public education has not only affected what we learn but how we think. In order to enable the church to detect progressivism's deleterious sway and protect herself by being equipped with the progressive revelation of

God and thereby counter the influence of progressive education of man I seek to highlight some of the underlying intolerable essentials of progressive education In the companion book to this one *The Equipping Church Somewhere Between Fundamentalism and Fluff* I explain the biblical model for the local church and how to build such a church *In the Name of Education* Jonas E. Alexis, 2007 Alexis convincingly examines the crisis in education from a Christian perspective Social Issues **Christianity and Rabbinic Judaism** Jonas E. Alexis, 2011-12-29 The simple step of a courageous individual is not to take part in the lie One word of truth outweighs the world Alexander Solzhenitsyn In this penetrating and provocative work Jonas E Alexis challenges common assumptions about the relationship between Christianity and Rabbinic Judaism and provides compelling evidence from history and theology that demonstrates the extent to which modern Judaism has been defined by the Pharisaic and Rabbinic schools of thought As Alexis meticulously documents there has been a constant struggle between Christianity and Rabbinic Judaism since the time of Christ a struggle that will define the destiny of the West Islam according to Christianity is a historically and theologically false religion since it denies both Jesus's deity and His work of salvation at the Cross But Rabbinic Judaism Alexis argues is equally false and in many respects more dangerous to Christianity and the West than Islam since at its root Rabbinic Judaism wages war against the Logos the system of order in the world embodied by Christ In this painstakingly scholarly yet readable work Alexis maintains that Rabbinic Judaism defined by the Pharisaic teachings now codified in the Talmud that Jesus sought to correct is a categorical and metaphysical rejection of Christianity a rejection that has had and will continue to have severe implications for Western culture intellectual history and theological exegesis
