Frontier Computing Jason C. Hung, Neil Y. Yen, Lin Hui, 2019-05-18 This book presents the proceedings of the 6th International Conference on Frontier Computing held in Kuala Lumpur Malaysia on July 3-6 2018 and provides comprehensive coverage of the latest advances and trends in information technology science and engineering. It addresses a number of broad themes including communication networks, business intelligence, and knowledge management, web intelligence, and related fields that inspire the development of information technology. The contributions cover a wide range of topics: database and data mining, networking and communications, web and internet of things, embedded systems, soft computing, social network analysis, security and privacy, optical communication, and ubiquitous pervasive computing. Many of the papers outline promising future research directions. The book is a valuable resource for students, researchers, and professionals and also offers a useful reference guide for newcomers to the field.

Biophysics and Other Topics Aharon Katzir-Katchalsky, 2013-10-22 *Biophysics and Other Topics: Selected Papers* by Aharon Katzir-Katchalsky covers papers on polyelectrolytes, mechanochemistry, irreversible thermodynamics, membrane processes, network thermodynamics, biophysics, and science and humanities. The book discusses polyelectrolytes, the electrostatic potential, thermodynamic properties, interaction with small molecules and ions, and cooperative transitions. The text also describes mechanochemistry, dynamics of macromolecular interactions, hysteresis, and memory. Irreversible thermodynamics, theory of membrane processes, and network thermodynamics are also considered. The book further tackles the reactions of amino acids with aldoses, polypeptide synthesis, and prebiotic synthesis. The text then encompasses topics on surface activity of polyelectrolytes, properties of the red cell membrane, and science and the humanities. People involved in the study of the above mentioned topics will find the book invaluable.

Teaching Writing for Academic Purposes to Multilingual Students John Bitchener, Neomy Storch, Rosemary Wette, 2017-04-07 Pushing past the typical genre and elements approach, this text explains how to integrate children's literature into and across the curriculum in effective, purposeful ways. The materials and practical strategies focus on issues that impact children's lives, building from students' personal experiences and cultural knowledge to using language to question the everyday world, analyze popular culture and media, understand how power relationships are socially constructed, and consider actions to take that promote social justice.

Cutting-Edge Research Topics on Multiple Criteria Decision Making Yong Shi, Shouyang Wang, Yi Peng, Jianping Li, Yong Zeng, 2009-07-09 MCDM 2009 the 20th International Conference on Multiple Criteria Decision Making emerged as a global forum dedicated to the sharing of original research results and practical development experiences among researchers and application developers from different multiple criteria decision making related areas such as multiple criteria decision aiding, multiple criteria classification, ranking, and sorting, multiple objective continuous and combinatorial optimization, multiple objective metaheuristics, multiple criteria decision

making and preference modeling and fuzzy multiple criteria decision making The theme for MCDM 2009 was New State of MCDM in the 21st Century The conference seeks solutions to challenging problems facing the development of multiple criteria decision making and shapes future directions of research by promoting high quality novel and daring research findings With the MCDM conference these new challenges and tools can easily be shared with the multiple criteria decision making community The workshop program included nine workshops which focused on different topics in new research challenges and initiatives of MCDM We received more than 350 submissions for all the workshops out of which 121 were accepted This includes 72 regular papers and 49 short papers We would like to thank all workshop organizers and the Program Committee for the excellent work in maintaining the conference's standing for high quality papers
