

Reteaching Worksheet

Application: Using Trigonometry

Many problems in daily life can be solved by using trigonometry. Often such problems involve an angle of elevation or an angle of depression.

Example: The angle of elevation from point A to the top of a cliff is 38° . If point A is 80 feet from the base of the cliff, how high is the cliff?

Let x represent the height of the cliff.
Then $\tan 38^\circ = \frac{x}{80}$.

$$80 \tan 38^\circ = x$$

Use a calculator set for the degree mode to find x .

ENTER: $80 \times 30 \text{ TAN } =$ 49.188021

The cliff is about 49 feet high.

Solve each problem. Round measures of segments to the nearest hundredth and measures of angles to the nearest degree.

- From the top of a tower, the angle of depression to a stake on the ground is 72° . The top of the tower is 30 feet above ground. How far is the stake from the foot of the tower?
- A tree 40 feet high casts a shadow 58 feet long. Find the measure of the angle of elevation of the sun.
- A ladder leaning against a house makes an angle of 60° with the ground. The foot of the ladder is 7 feet from the foot of the house. How long is the ladder?
- A balloon on a 40-foot string makes an angle of 50° with the ground. How high above the ground is the balloon if the hand of the person holding the balloon is 6 feet above the ground?

Reteaching 8 5 Geometry

Douglas Waples, William Claude Reavis

Reteaching 8 5 Geometry:

Sfaw Math Grade 3 Practice Workbook Scott Foresman,1997-07-22 Scott Foresman Addison Wesley MATH 2001 components for Grade 3 **The Algebra Teacher's Guide to Reteaching Essential Concepts and Skills** Judith A. Muschla,Gary R. Muschla,Erin Muschla,2011-10-25 Easy to apply lessons for reteaching difficult algebra concepts Many students have trouble grasping algebra In this book bestselling authors Judith Gary and Erin Muschla offer help for math teachers who must instruct their students even those who are struggling about the complexities of algebra In simple terms the authors outline 150 classroom tested lessons focused on those concepts often most difficult to understand in terms that are designed to help all students unravel the mysteries of algebra Also included are reproducible worksheets that will assist teachers in reviewing and reinforcing algebra concepts and key skills Filled with classroom ready algebra lessons designed for students at all levels The 150 mini lessons can be tailored to a whole class small groups or individual students who are having trouble This practical hands on resource will help ensure that students really get the algebra they are learning
