**Retrieving Origins and the Claim of Multiculturalism** Antonio Lopez,Javier Prades,2014-11-10 This book explores the philosophical legal and theological roots of Western multiculturalism that is the encounter and coexistence of different cultures within a liberal society Rather than concerning themselves with the particulars of cultural dialogue the authors of this volume go deeper and question the very reality of multiculturalism itself The contributors represent different cultures and faith traditions but are united in friendship and in the conviction that the Christian faith enables an authentic approach to long standing debates on multiculturalism Publisher *Philosophies of Multiculturalism* Luis Cordeiro-Rodrigues,Marko Simendic,2016-09-01 This edited collection offers a comparative approach to the topic of multiculturalism including different authors with contrasting arguments from different philosophical traditions and ideologies It puts together perspectives that have been largely neglected as valid normative ways to address the political and moral questions that arise from the coexistence of different cultures in the same geographical space The essays in this volume cover both historical perspectives taking in the work of Hobbes Tocqueville and Nietzsche among others and contemporary Eastern and Western approaches including Marxism anarchism Islam Daoism Indian and African philosophies **Pope Benedict XVI's Legal Thought**

Marta Cartabia,Andrea Simoncini,2015-03-05 This book discusses the speeches in which the Pope Emeritus Benedict XVI reflected most explicitly on law justice democracy and reason along with the commentary from a number of distinguished legal scholars Collectively these addresses formulate a series of core ideas for a public teaching on the topic of justice and law **The New Nihilism** Costantino Esposito,2024-11-01 In this highly engaging book Costantino Esposito argues that nihilism is not merely the loss of the classic values of the Western tradition rather it presents a critical opportunity to ask pertinent timely questions about the meaning of self and the world Nihilism is a problem that has troubled the culture philosophy and worldview of people and societies for more than a century a problem that seemed thanks to the advance of

cultural relativism to have become an obvious and globally shared condition. However in recent years the conversation around nihilism has begun to change. The questions that nihilism once declared impossible to answer – questions about the ultimate meaning of self and reality, the truth of the person and history, our desire to understand ourselves in relation to the infinite – are reemerging in today's culture and proving to be profound, reasonable and of vital importance. In its classical form nihilism is the loss of values and ideals, but its modern iteration manifests as an irreducible need, more basic but far more challenging. Esposito suggests that rather than being an obstacle, nihilism can become an opportunity to search for true meaning for our experiences in the world. With philosophical rigor he intercepts and narrates this new phenomenon focusing on social trends, poetic voices, philosophical and scientific visions, ethical problems and aesthetic experiences. *The New Nihilism* unravels and makes sense of the real stakes of the existential crisis of our time. *The Future of the Self* Natalia Kucirkova, 2021-02-01. When children as young as three can take their own selfies and customise their own avatars, how should we respond to the opportunity and threat of digital personalization for young children? In this book Kucirkova offers a comprehensive account of the effects of digitally mediated personalization on children's development of self. *Multicultural Origins of the Global Economy* John M. Hobson, 2020-12-10. Develops a fresh non Eurocentric analysis of the rise and development of the global economy in the last half millennium. **Introduzione alla realtà totale** Vari Autori, 2023-08-29. Luigi Giussani (1922-2005) aveva una personalità dirompente: la sua testimonianza di fede stata ed tuttora straordinariamente contagiosa e ricca di frutti, ma non si renderebbe adeguatamente conto di essa e della sua peculiare fecondità di risultati se ci si dimenticasse che nella sua proposta generativa di affinità e di popolo si esprime una genialità di pensiero. Gli esiti di molte sue riflessioni in ambito teologico, filosofico e pedagogico hanno infatti un marcato carattere di originalità e hanno profondamente seppure a volte sotterraneamente influenzato la cultura contemporanea. Egli è stato e ha voluto essere con tutte le sue forze un educatore consapevole che dall'educazione dipende la fioritura di ogni essere umano e l'assetto dell'intera società. Dalla viva esperienza sul campo, dal suo personale e instancabile coinvolgimento con migliaia di giovani e di adulti, hanno preso forma le intuizioni portanti di un pensiero pedagogico corrispondente all'umano che non si lascia confinare in un tempo storico determinato, ma si offre con intatta pertinenza e forza di provocazione al nostro presente. Il Centenario della nascita stata una circostanza propizia per illuminare ulteriormente il pensiero di Luigi Giussani: la sua originalità e le sue ancora largamente inesplorate virtualità. Il presente volume, il terzo dei tre progettati in occasione del Centenario, rispettivamente dedicati al suo pensiero teologico, filosofico e pedagogico sociale, curato da Carmine Di Martino, raccoglie testi di pedagogisti, sociologi, economisti e giuristi dell'attuale panorama culturale italiano e internazionale.

**History of the Literary Cultures of East-Central Europe** Marcel Cornis-Pope, John Neubauer, 2006-09-13. Continuing the work undertaken in Vol 1 of the *History of the Literary Cultures of East Central Europe*, Vol 2 considers various topographic sites, multicultural cities, border areas, cross cultural corridors, multiethnic regions that cut across national

boundaries rendering them permeable to the flow of hybrid cultural messages By focusing on the literary cultures of specific geographical locations this volume intends to put into practice a new type of comparative study Traditional comparative literary studies establish transnational comparisons and contrasts but thereby reconfirm however inadvertently the very national borders they play down This volume inverts the expansive momentum of comparative studies towards ever broader regional European and world literary histories While the theater of this volume is still the literary culture of East Central Europe the contributors focus on pinpointed local traditions and geographic nodal points Their histories of Riga Plovdiv Timișoara or Budapest of Transylvania or the Danube corridor to take a few examples reveal how each of these sites was during the last two hundred years a home for a variety of foreign or ethnic literary traditions next to the one now dominant within the national borders By foregrounding such non national or hybrid traditions this volume pleads for a diversification and pluralization of local and national histories A genuine comparatist revival of literary history should involve the recognition that treading on native grounds means actually treading on grounds cultivated by diverse people

### **Worlding**

**Multiculturalisms** Daniel P. S. Goh, 2014-11-20 Worlding multiculturalisms are practices that infuse our arbitrary cultural lives with new things from other cultures in poetic ways to enable us to dwell and be at home with the complexity of the world In the context of the crisis of multiculturalism in the West and the growing obsolescence of state based multiculturalism in the postcolonial world this book offers examples of new practices of worlding multiculturalisms that go beyond issues of immigration integration and identity Contrasting Western and Asian notions of multiculturalism this book does not focus on state issues but rather highlights manifestations of cultural exchange The chapters draw on cultural studies approaches to document instances of worlding multiculturalisms that bring Asian cultures into conflict dialogue and settlement with each other Instances include an Asian American return novel set in Penang the cultural productions and street performances of democracy marches in Malaysia the campaigns to reclaim public spaces and citizenship rights by migrant domestic workers in Hong Kong the imaginary vistas opened up by Japanese popular culture consumed throughout Asia the localisations of casino complexes in Macau and a shopping mall in Seoul and an old municipal cemetery being defended from urban redevelopment in Singapore Rather than merely globalizing forms of political diversity these are instances with the potential to transform social relations and the very terms of cultural exchange Worlding Multiculturalisms offers a truly interdisciplinary examination of multiculturalism in action As such it will appeal to students and scholars of cultural studies Asian studies Asian culture and society cultural anthropology and sociology and political sociology

*Retrieving Political Emotion* Barbara Koziak, 2010-11-01 *Rethinking Federalism* Karen Knop, Sylvia Ostry, Richard Simeon, Katherine Swinton, 2011-11-01 Federalism is at once a set of institutions the division of public authority between two or more constitutionally defined orders of government and a set of ideas which underpin such institutions As an idea federalism points us to issues such as shared and divided sovereignty multiple loyalties and identities and governance

through multi level institutions Seen in this more complex way federalism is deeply relevant to a wide range of issues facing contemporary societies Global forces economic and social are forcing a rethinking of the role of the central state with power and authority diffusing both downwards to local and state institutions and upwards to supranational bodies Economic restructuring is altering relationships within countries as well as the relationships of countries with each other At a societal level the recent growth of ethnic and regional nationalisms most dramatically in Eastern Europe and the former Soviet Union but also in many other countries in western Europe and North America is forcing a rethinking of the relationship between state and nation and of the meaning and content of citizenship Rethinking Federalism explores the power and relevance of federalism in the contemporary world and provides a wide ranging assessment of its strengths weaknesses and potential in a variety of contexts Interdisciplinary in its approach it brings together leading scholars from law economics sociology and political science many of whom draw on their own extensive involvement in the public policy process Among the contributors each writing with the authority of experience are Tommaso Padoa Schioppa and Jacques Pelkmans on the European Union Paul Chartrand on Aboriginal rights Samuel Beer on North American federalism Alan Cairns on identity and Vsevolod Vasiliev on citizenship after the breakup of the Soviet Union The themes refracted through these different disciplines and political perspectives include nationalism minority protection representation and economic integration The message throughout this volume is that federalism is not enough rights protection and representation are also of fundamental importance in designing multi level governments
