Summary of George G. Ritchie & Elizabeth Sherrill's Return from Tomorrow Everest Media, 2022-06-22T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 I had a patient named Fred Owen who was dying of lung cancer I had suspected it in September when he first came to see me with symptoms of severe depression The depression the hacking cough and his chain smoking had alerted me 2 The author met with Fred who was dying of cancer He had quit his job four months earlier and was now trying to work through his relationships with his mother and wife 3 I told Fred that I believed that our consciousness does not cease with physical death and that how we spend our time on earth is vastly more important than we can know I had no idea what the next life would be like but I was certain that my life as a psychiatrist was completely based on the experience 4 I explained to Fred that I was not going to try to draw any conclusions I was just going to describe what happened from the moment I entered the Army hospital Later if he wanted to talk about what it meant we could do that

Tense across Languages Renate Musan, Monika Rathert, 2011-10-27 This book addresses recent developments in the study of tense from a cross paradigm and cross linguistic point of view Leading international scholars explore challenging ideas about tense at the interfaces between semantics and syntax as well as syntax and morphology The book is divided into three main subsections 1 Tense in tenseless languages 2 Tense mood and modality and 3 Descriptive approaches to some tense phenomena Although time is a universal dimension of the human experience some languages encode reference to time without any grammatical tense morphology of the verb Some of these exceptional tenseless languages are investigated in this volume Kalaallisut Paraguayan Guaran and Movima Modal verbs are polyfunctional in the sense that they express both tense and modality In this volume an untypical modal is analyzed a modal analysis of imperatives is argued for and sentential mood which is closely related to modality is analyzed It is always interesting to look at the expression of tense in understudied

languages which is done here for Scottish Gaelic Austronesian Rukai and German dialects The volume can be used for graduate and undergraduate level teaching Papers in Structural and Transformational Linguistics Zellig S.
