The Evolution of Multinationals from Japan and the Asia Pacific Robert Fitzgerald, Chris Rowley, 2018-10-11 The rise of the Japanese multinational company JMNC marked from the 1980s onwards an historic change in the structure and in the dynamics of the international economy For the first time businesses from a non Western nation established a competitive global presence and they did so by bringing their advanced products and management systems to the developed economies of Europe and North America In the last 30 years our interpretations of JMNCs have undergone a series of revisions Korean firms followed JMNCs in the 1990s and the Chinese likewise in the 2000s A seeming decline in JMNC competitiveness and developments in the structure of the international economy challenged a business model of parental company direction control and capabilities Both trends asked questions about how Japanese subsidiaries should operate in global production chains increasingly reliant on contracting out and off shoring and how JMNCs might engage more in strategic cooperation and empower subsidiary decision making The contributors to this volume consider a wide range of relevant issues they demonstrate the long term evolution of JMNCs they compare the experience of JMNCs with firms from the other two major Asia Pacific economies Korea and China they evaluate the applicability of established foreign direct investment FDI theory to MNCs from Japan and the Asia Pacific and they reflect on the internal organization of JMNCs at the global national and subnational level This book was originally published as a special issue of Asia Pacific Business Review

Processing Vehicles Used in Violent Crimes for Forensic Evidence

Christopher D. Duncan, 2021-11-18 While there are numerous books on crime scene investigation and the processing of crime scenes few focus on the processing of vehicles Whether the crime took place in the car or the car was used to transport the suspect or victim and as such is a secondary scene investigating vehicles presents several unique challenges Processing Vehicles Used in Violent Crimes for Forensic Evidence fills this void providing the technical instruction sorely needed in this area of crime scene investigation The book is geared not only to investigators who process vehicles involved in general crimes but also with a specific focus on violent crimes Coverage includes details as to how investigators should document the vehicle in a logical and methodical manner that is easily understood and replicated for various scenes By identifying the unique challenges caused by working in the tight quarters of a vehicle especially in photographing the vehicle the evidence within it and how to best find collect document and preserve the evidence the author provides a unique reference for investigators Special attention is paid to documenting shooting incidents the proper detailing and documentation of bullet

trajectories bloodstain documentation and processing vehicles for other biological impression and physical evidence Key Features Presents crime scene collection and preservation techniques and methodology specific to vehicle related considerations Outlines the unique challenges and step by step procedural requirements necessary to conduct a vehicle or vehicle related scene investigation Addresses types of various evidence for vehicles including fingerprint blood DNA bullet and casing and fire debris which are common primary or secondary crime scenes While the book is geared toward crime scene investigators and forensic technicians who process vehicles used in crimes it will be an invaluable resource for criminal justice and forensic science students attorneys death investigators fire investigators accident scene investigators and scene reconstructionists
