Remember that the truck becomes when you pick up and put down loads at height.

Handle only loads that are stable and properly secured.

Adjust loads when you position the load correctly and don't be distracted by other things.

Never drive with a raised load - always keep the load at a safe, low level.

When you have collected a pallet from the rack, always lower the load first before turning the truck.

Always wear the seat belt when operating, negotiating corners with a reduced speed and at all times.

Always park in the designated area and never leave the truck unattended where it is out of view.
