fusion of human resource management and sports **Cracking the Federal Job Code** Corliss Jackson, 2016-03-29 If you've got what it takes to be a civil servant for the federal government it can be frustrating to apply to positions and never get an interview. You're not alone: thousands of people apply to federal jobs without success and many of them are experienced professionals just like you. The ones who get the jobs aren't necessarily more qualified; they've just mastered the process. Corliss Jackson, formerly with the US Office of Personnel Management and the author of the Washington Post's weekly federal jobs column Corliss's Corner, reveals the secrets you need to learn to master the federal application process, qualify for federal jobs, create your federal resume, stand out in a sea of qualified candidates, understand what's needed for security clearances. The cobwebs clouding the federal hiring process can be difficult to clear, which is why you need someone with more than twenty years of experience in federal human resources to help show you the way. Break through the red, white, and blue tape that stands in between you and your federal dream job and start **Cracking the Federal Job Code** **Resources in Education**, 1997-10 Demystifying Career Paths after Graduate School Ryuko Kubota, Yilin Sun, 2013-01-01 This edited book offers concrete information and useful suggestions to graduate students who are seeking employment at institutions of higher education in North America and other parts of the world. This book also targets entry-level faculty members who are exploring increased participation in professional activities. The book features critical turning points in career trajectories, demystifies hidden institutional structures, and illuminates blind spots that are critical for career success. The authors are scholars from nonnative English-speaking and/or racially minority backgrounds in the fields of applied linguistics and teaching English to speakers of other languages. The firsthand suggestions offered by these authors are also applicable to non-minority professionals and those in other related disciplines. Furthermore, the book assists faculty mentors and administrators to understand the unique challenges and issues faced by minority professionals. Distinctive features of the book are: 1. theme-based approach with concrete examples and specific advice; 2. focus on victory narratives of success and strategies rather than victim narratives of struggles; 3. accessible style; and 4. wide range of experiences narrated by both novice and established scholars. This guidebook can be read independently or adopted as a resource book for graduate seminars. *The Application of the Controllability Principle and Managers' Responses* Franz Michael Fischer, 2010-07-24 Franz Michael Fischer investigates the relationships between the application of the controllability principle and managers' cognitive, affective, and behavioral responses. The author further explores the impact of several important contextual factors on the basic relationships and thus develops moderated mediation models. He reveals that the application of the controllability principle has a significant effect on role stress and role orientation, which in turn are related to managerial performance and affective constructs. UK's Stock Market Reactions to Layoff Announcements Jonathan Vu, 2012-08 This research aims to examine the relationship between stock market reactions and layoff announcements. The scene is set under the UK market in 2007-2009. The term layoff announcements in this paper refers to companies' announcements of reduction in the workforce.

both temporarily and permanently The research is carried out by adopting deductive approach which leads to the formations of eight testable hypotheses about general market reactions to layoff announcements and different market reactions to layoff announcements with different characteristics The research method used is event study for comparing the actual shareholder return to a firm given the event of layoff announcement to the share holder return that would have occurred with the assumption that the event did not happen The hypotheses are tested using a sample of 79 layoff announcements by 51 UK listed companies during the period of January 2007 August 2009 Results from this research show sufficient evidence that Market reacts negatively to layoff announcements in general Medium layoffs 5 10% receive the strongest market reactions Market react negative and more strongly towards reactive layoffs compare with positive and weaker market reactions to proactive layoffs Market reacts more favourably to layoff announcements from services to manufacturing and from financial to non financial sectors **Managing Federal Recruitment** United States.
